BROOKLYN RAPID TRANSIT COMPANY.

HISTORY.—Incorp. Jan. 18, 1896, under the provisions of the Business Corporations Law of the State of New York. The purposes for which the company was formed are set forth in the certificate of incorporation, as follows: "Second—The purposes for which it is to be formed are the construction, extension, repair, improvement, equipment of and furnishing the motive power for railroads and other works, and aiding any corporation or individual in such construction, extension, repair, improvement, equipment, and furnishing of motive power. Third—The said corporation shall be authorized to purchase, acquire, hold and dispose of the stocks, bonds, and other evidences of indebtedness of any corporation, domestic or foreign, and issue in exchange therefor its stock, bonds, and other obligations." The company was the legal successor to the Long Island Traction Co., a corporation formed under the laws of Virginia, whose assets were sold under foreclosure of its collateral trust notes in Dec., 1895, and passed by conveyance from Frederick P. Olcott, Chairman of the Reorganization Committee of Long Island Traction Co. to Brooklyn Rapid Transit Co. These consisted principally of (1) entire capital stock of Brooklyn Heights RR. Co. (except shares qualifying directors), par value, $200,000, carrying with it lease of Brooklyn City RR. Co. for 999 years; (2) entire capital stock of Brooklyn, Queens County and Suburban RR. Co. (except shares qualifying directors), par value, $2,000,000; (3) guaranty fund for performance of lease of Brooklyn City RR. Co. to Brooklyn Heights RR. Co., consisting of $2,000,000 par value Brooklyn, Queens County and Suburban RR. 1st mtge. bonds, and $1,627,000 par value Brooklyn City RR. Co. 1st mtge. bonds; (4) Equity in Construction Account of Brooklyn Heights RR. Co., against Brooklyn City RR. Co. For place of reorganization, see MANUAL for 1895, page 1400. The duration of the charter is 999 years.

The company is not a railroad corporation, but, as stated above, was organized to hold the stocks and bonds of railroad companies, and to aid in the construction and equipment of railroads. The various properties of the company are in the main operated under lease by the Brooklyn Heights RR. Co., all of whose stock is owned by the Brooklyn Rapid Transit Co. The capital stock of the B. R. T. Co., under the plan of reorganization, was fixed at $20,000,000. On Feb. 11, 1899, the stockholders authorized an increase from $20,000,000 to $45,000,000, the remaining $25,000,000 being used at intervals during the succeeding year for the acquisitions of stocks of street railroad companies in the Borough of Brooklyn, and for cash, the cash thus realized being used in the acquisition and reconstruction of railroad properties.

New Bond Issue.—On March 20, 1902, the stockholders authorized a mortgage upon the property of the company securing bonds bearing interest not higher than 4 p. c., and of a total amount not exceeding $150,000,000. None of these bonds had been issued up to June 1, 1903. Of the amount authorized, the mortgage provides that a sufficient amount shall be reserved to refund the bonds of the Brooklyn Rapid Transit Co., and of the subsidiary railroad companies as they become due, or sooner, if the exchange can be made with advantage to the company. The remainder of the bonds can be issued only for the purpose of acquiring additional securities and properties, or to provide money with which the subsidiary companies may make improvements, extensions or betterments. Under the term of the mortgage, these bonds may be issued convertible at the option of the holder into stock of the company, at par, at any time after July 1, 1904, and before July 1, 1914.

It is organized principally to maintain and operate the Rapid Transit Railroad at present being constructed by John B. McDonald, under contract with the city of New York, which railroad has been leased to the Interborough Rapid Transit Co., for the term of 50 years, with the privilege of a renewal for a further term of 25 years, and which railroad it will operate as soon as the same is completed. The authorized capital stock of the company was fixed in its certificate of incorporation at $25,000,000. On July 10, 1902, there was assigned to the company, with the consent of the Board of Rapid Transit Railroad Commissioners of the City of New York, the lease from the city of New York to the said John B. All of the capital stock of the company, with the exception of 130 shares, is deposited under a voting trust agreement, dated May 14, 1902, to be held for a period of five years from May 15, 1902, such stock being represented by voting trust certificates issued in accordance with the terms of such agreement.

On July 21, 1902, the Rapid Transit-Subway Construction Co., all of whose capital stock is owned by the Interborough Rapid Transit Co., entered into contract with the city of New York, for the construction of an extension of the Rapid Transit Railroad, above referred to, from its terminus at City Hall Park, in the Borough of Manhattan, under Broadway and the East River, and certain streets in the Borough of Brooklyn, to the intersection of Flatbush and Atlantic Avenues in said Borough, the said railroad when completed to be leased to said company for 35 years with provisions for a renewal for a further period of 25 years.

METROPOLITAN SECURITIES COMPANY.

HISTORY.—Incorp. under the Business Corporation Laws of the State of New York, on February 14, 1902, with an authorized capital stock of $30,000,000, divided into shares of $100 each, of which $50 paid in up to June 10, 1903. The purpose of its formation was, primarily, to provide the money (approximately, $23,000,000) required to pay the unfunded debt of the Metropolitan Street Ry. Co. incurred in the purchase of stock of the Third Avenue RR. Co., and to defray the expense of extending the electrical system to upward of 80 miles of lines of the Metropolitan Street Ry. system still operated with horse cars.

The company has acquired all of the outstanding capital stock and other securities issued by the Interurban Street Ry. Co., which has an authorized capital stock of $20,000,000, and also all of the outstanding capital stock and other securities issued by the People's Traction Co. of the City of New York and the New York, Westchester and Connecticut Traction Co., all of which companies own and control franchises for the construction and operation of street railroads on an extensive mileage of streets in the Borough of the Bronx and adjacent territory. An agreement has been entered into between the Securities Co. and the Interurban Co., by the terms of which the Securities Co. is to pay into the treasury of the Interurban Co. at least $23,000,000 in cash (as required for the purposes hereinafter stated), receiving in return stock of the Interurban Co. at par and debentures bearing interest at a rate not exceeding 4 p. c. per annum. The agreement further provides that the Securities Co. shall acquire any further stock and securities that the Interurban Co. may hereafter issue.

On March 20, 1902, the stockholders of the Metropolitan Street Ry. Co. and of the Interurban Street Ry. Co. voted to lease the lines of the Metropolitan Street Ry. Co., to the Interurban Street Ry. Co. for 999 years from April 1, 1902, the lessee agreeing to do the following things, among others: (1) Assume the fixed charges of the Metropolitan Street Ry. Co., and unconditionally guarantee 7 p. c. per annum upon the entire amount of its capital stock, payable quarterly, and (2) pay $23,000,000 into the treasury of the Metropolitan Street Ry. Co. in return for the securities liberated by the payment of the unfunded debt and other assets then almost entirely unproductive; said sum of money to be expended in liquidating the unfunded debt and in completing the electrical equipment of the Metropolitan system, and to be paid as required for those purposes. The stockholders of the Metropolitan Street Ry. Co. were offered the privilege of subscribing at par for an amount of the stock of the Metropolitan Securities Co. equal to 45 p. c. of the par value of the capital stock of the Metropolitan Street Ry. Co.; that is to say, for $23,400,000 of such stock out of the total capital of $30,000,000.

It was proposed that the Metropolitan Street Ry. Co. should create a refunding mortgage to secure an authorized issue of $65,000,000 of 4 p. c. 100-yr. refunding bonds, of which about $54,000,000 were to be reserved to retire and refund the several issues (27 in all) of existing bonds secured by liens upon various parts of the Metropolitan system (excluding the Third Avenue lines) as they respectively mature, and also for refunding in advance of maturity such of the existing bonds as can be advantageously acquired either by purchase or by way of exchange for the new refunding bonds. By the terms of the agreement of lease, the Interurban Co., as lessee, must provide the interest upon the bonds to be issued under this refunding mortgage, as well as all other fixed charges, without impairment of the guaranteed annual payment of 7 p. c. upon the capital stock of the Metropolitan Street Ry. Co. The remainder of the refunding bonds not reserved for refunding purposes are to be issued against expenditures made, and to be made upon lines of subsidiary companies and for other corporate purposes, and may be issued under the agreement of lease, in lieu of other assets, in part reimbursement of the funds to be provided thereunder. The present operating management will be continued in charge of the Metropolitan system.

RAILROADS LEASED BY THE INTERURBAN STREET RY. CO.

Metropolitan Street Ry.—Length of tracks owned and leased, June 30, 1902 (see detailed statement following), 197.15 miles. Gauge, 4 ft. 8½ in. Rail (steel), 47 to 113 lbs.

History.—Consolidation, Nov. 29, 1893, of the Houston, West Street and Pavonia Ferry RR., the Broadway Ry. and the South Ferry RR. Cos. (see MANUAL for 1894, page 1014). On May 18, 1894, the Metropolitan Crosstown Ry. and the Lexington Avenue and Pavonia Ferry RR. Cos. were consolidated with this company, as was also the Columbus and Ninth Avenue RR. Co. on Nov. 7, 1895 (see MANUAL for 1898, page 1050). The Metropolitan Traction Co., which owned the entire capital stock of this company, was dissolved in Oct., 1897, its capital stock of $30,000,000 being exchanged at par for stock of this company, the stockholders also receiving 20 p. c. of the par value of their shares in 5 p. c. debenture certificates. On Oct. 15, 1898, these debentures were retired by an issue of an equal amount ($6,000,000) of capital stock as stated elsewhere in this statement. Included in the operations of this company given in this statement are those of the following leased lines: Bleecker Street and Fulton Ferry RR., Broadway and Seventh Avenue RR., Central Park, North and East River RR., Eighth Avenue RR., Forty-second Street and Grand Street Ferry RR., New York and Harlem RR. (city division), Ninth Avenue RR., Second Avenue RR., Sixth Avenue RR., and Twenty-third Street Ry. (see appended statements for these several companies).

The property of the Third Avenue RR. Co. was leased to this company on April 13, 1900, for 999 years. Under the terms of their lease, the lessee guarantees payment of principal and interest on $50,000,000 of 4 p. c. 1st consol. mtge. bonds of the lessor company, of which $15,000,000 are held in the treasury to take up underlying securities of the Third Avenue RR. and subsidiary lines, and in addition thereto dividends as follows: For the first four years from date of lease, Third Avenue stock will receive only the net income above expenses and fixed charges; for the next two years dividends of 5 p. c. per annum; for the succeeding four years, 6 p. c. per annum, and thereafter 7 p. c. per annum (see MANUAL for 1901, page 987). The operations of the Third Avenue RR. system are reported separately from and are not included in those of the Metropolitan Street Ry. Co. The Third Avenue RR. Co. also leased to this company the following roads, which it controls through ownership of a majority of the capital stock: Union Ry. of New York, Forty-second Street, Manhattanville and St. Nicholas Avenue Ry., Dry Dock, East Broadway and Battery RR., and the Kingsbridge RR., also the following, owned by the Union Ry. Co. of New York: Yonkers RR., Westchester Electric RR., Southern Boulevard RR., and the Tarrytown, White Plains and Mamaroneck Ry. (For statements of these several companies, see pages 1032 to 1034).

This company also controls, through ownership of stock, the Central Crosstown RR. (with its leased line, the Christopher and Tenth Street RR.), the Fulton Street RR., the Thirty-fourth Street Crosstown Ry., and the Twenty-eighth and Twenty-ninth Streets Crosstown Ry. Cos., but their operations are reported separately (see subjoined statements). The underground electric system is being gradually substituted for horse power on several of the company's lines. In July, 1900, the electric storage battery system was introduced on the Thirty-fourth Street Crosstown line.

On April 1, 1902, the property of this company was leased to the Interurban Street Ry., for 999 years from that date, at a guaranteed rental of 7 p. c. per annum, on the stock of the lessor company, in addition to all fixed charges. The lessee is to pay $23,000,000 into the treasury of the Metropolitan Street Ry. Co. in return for the securities liberated by the payment of the unfunded debt and other assets then almost entirely unproductive; said money to be expended in liquidating the unfunded debt, and in completing the electrical equipment of the Metropolitan system, and to be paid as required for that purpose. The Metropolitan Securities Co. owns all the outstanding capital stock of the Interurban Street Ry. Co. (see statements preceding for these two companies). The stockholders of the Metropolitan Street Ry. Co. were offered the privilege of subscribing at par for an amount of the stock of the Metropolitan Securities Co., equal to 45 p. c. of the par value of their holdings; that is, for $23,400,000 of such stock out of the total capital of $30,000,000.

The Metropolitan Street Ry. Co. under date of April 1, 1902, executed a mortgage to secure an issue of $65,000,000 of not exceeding 4 p. c. 100-yr. refunding bonds, of which about $54,000,000 are to be reserved to retire and refund the several issues (27 in all) of existing bonds secured by liens upon various parts of the Metropolitan system (excluding the Third Avenue lines), as they respectively mature, and also for refunding in advance of maturity such of the existing bonds as can be advantageously acquired either by purchase or exchange for the new bonds. The Interurban Street Ry. Co., as lessee, guarantees the interest upon the bonds. Up to May 1, 1903, $12,780,000 of these bonds had been issued (for further particulars see details on page 1026).

Further Particulars Respecting Funded Debt.

The general mortgage and collateral trust bonds are for $1,000 each, in coupon form, and $1,000 and multiples thereof in registered form. They are a 1st mortgage on the property of the Houston, West St., and Pavonia Ferry RR. Co., commonly called the Avenue C line; and also a first lien on the Chambers St. and Grand St. Ferry RR.; on the Fort Lee extension, from intersection of 125th St. and Amsterdam Ave. to 130th St. and North River; and on the new electric power house now being erected at 96th St. and First Ave., to cost about $5,000,000. The mortgage is also a first lien on various pieces of real estate scattered throughout the city, with an estimated value of $500,000. The leases of the following companies are pledged for the further security of the mortgage: Broadway and Seventh Ave. RR. Co.; 23d St. Ry. Co.; Bleecker St. and Fulton Ferry RR. Co.; Central Park, North and East River RR. Co.; 6th Ave RR. Co.; 8th Ave. RR. Co.; 4th Ave. RR. Co.; 42d St. and Grand St. Ferry RR. Co.; 9th Ave. RR. Co. As collateral security to the mortgage there have been deposited with the trustee the following stocks: 14,000 shares out of a total authorized issue of 21,000 shares of the Broadway and Seventh Ave. RR. Co.'s guaranteed stock; 4,000 shares out of a total authorized issue of 7,500 shares of the 42d St. and Grand St. Ferry RR. Co.'s 18 p. c. guaranteed stock; 3,000 shares out of a total authorized issue of 18,000 shares of the Central Park, North and East River RR. Co.'s 9 p. c. guaranteed stock; 9,900 shares out of a total authorized issue of 10,000 shares of the 34th St. Crosstown Ry. Co.'s stock. The company has expended in acquiring the stocks above named and in making improvements not heretofore capitalized in any form, a sum in excess of $8,000,000. Of the proceeds of these bonds, $6,000,000 were placed in the hands of trustees to retire prior liens or to be paid out as further expenditures are made and duly certified. The mortgage provides that if default is made in the payment of all or any part of any instalment of the interest for the space of 90 days, or should any taxes or assessments remain unpaid for one year, then the entire principal sum secured by the outstanding bonds, together with the interest, becomes due.

Four p. c. Refunding 100-yr. Mtge. Bonds.—Under date of April 1, 1902, the company executed a mortgage to the Morton Trust Co., New York, N. Y., trustee, to secure an issue of $65,000,000 4 p. c. refunding $1,000 gold bonds, dated April 1, 1902, and due April 1, 2002, interest payable April 1 and Oct. 1 at the office or agency of the company in New York City. Bonds are in coupon form for $1,000 each, and may be registered as to principal, or may be exchanged for registered bonds of the denomination of $1,000, numbered from 1 upward, or of the denomination of $5,000, numbered from V1 upward, or of the denomination of $10,000, numbered from X1 upward. Any registered bond may be converted into a coupon bond or bonds, with unmatured coupons attached. The bonds are not subject to redemption.

The mtge. securing these bonds provides that of the total authorized amount, $48,196,000 be reserved to retire existing funded obligations of the Metropolitan Street Ry. Co., and various subsidiary companies aggregating said amount; $11,000,000 are subject to issue upon the order of the board of directors, and the remainder ($5,804,000) are reserved subject to the terms of the mortgage for refunding purposes until Jan. 1, 1920, after which date any balance not required for refunding purposes may be issued upon the order of the board of directors. Up to May 1, 1903, $12,780,000 of these bonds had been issued, of which $11,000,000 were issued to the Interurban Street Ry. Co. (in part consideration for a payment of $23,000,000), and $1,780,000, sold for refunding purposes pursuant to the mortgage, with the proceeds of which the following existing obligations have been or will be retired: $1,200,000 of consol. mtge. 7 p. c. bonds of the Central Park North and East River RR. Co., which matured Dec. 1, 1902; $50,000 of 1st mtge. 6 p. c. extended bonds of the Twenty-third St. Ry. Co. and $50,000 of 1st mtge. 6 p. c. extended bonds of the Forty-second St. and Grand St. Ferry RR. Co. which bonds were called for redemption at par on July 1, 1902, and two bonds aggregating $350,000 secured by mortgage upon a portion of the company's real estate. The mortgage securing said bonds provides that in case of default for a period of three months in the payment of any interest, the principal of all outstanding bonds may be declared due. The bonds are secured by mortgages upon the franchises, railroads, equipment, leases, real estate and other property of the Metropolitan Street Ry. Co., subject only to the existing mortgages of $48,196,000 (for the ultimate retirement of which $54,000,000 of the refunding bonds are reserved in the hands of the trustee) and also by the pledge of 14,000 shares Broadway and Seventh Avenue RR. Co. stock, 4,000 shares Forty-second Street and Grand Street Ferry RR. Co. stock, 3,000 shares Central Park, North and East River RR. Co. stock, and 9,900 shares Thirty-fourth Street Crosstown Ry. Co. stock, the only prior lien upon such stock being the $12,500,000 general mortgage and collateral trust of the Metropolitan Street Ry. Co., which forms part of the stated total existing debt of $48,196,000. This latter amount does not include the debt of the lines of the Third Avenue RR. System.

Funded debt outstanding consisted, Jan. 1, 1903, of $175,000 1st mtge. 6 p. c. R. C. & B. RR. 30-yr. $500 coupon bonds, due April 1, 1919, interest April and Oct.; $2,700,000 ($3,000,000 auth.) 5 p. c. consol. mtge. 40-yr. $1,000 gold coupon, with privilege of registration, bonds, due April 1, 1930, interest April and Oct.; $1,500,000 2d mtge. 5 p. c. 40-yr. $1,000 gold coupon, with privilege of registration, bonds, due Dec. 1, 1933, interest June and Dec.; and $182,000 6 p. c. 10-yr. collateral trust $1,000 coupon notes, dated March 1, 1895, interest March and Sept.—total, $4,557,000.

The consols and the 2d mtge. bonds are secured on the entire property now owned or which may hereafter be acquired, and are free of all taxes. A sufficient amount of consols is reserved for the retirement of the bonds of the R. C. & B. RR. Co. The authorized amount of 2d mtge. bonds is $1,500,000, of which $750,000 were reserved for the retirement of the debentures, which are now all retired. Interest on bonds payable as follows: on R. C. & B. bonds of 1919, at Rochester Trust and Safe Deposit Co., Rochester, N. Y.; on consols at office of Cuyler, Morgan & Co., New York, N. Y.; and on 2d mtge. bonds and collateral trust notes, at Security Trust Co., Rochester, N. Y. Trustee of bonds: Cuyler, Morgan & Co., New York, N. Y.

At a meeting of the stockholders on May 24, 1901, it was decided to retire the (then) present issue of $5,000,000 of common stock by the issue of $2,500,000 of new common stock and $2,500,000 of new preferred stock, which preferred stock should carry 5 p. c. cumulative dividends from January 1, 1902, to be preferred both as to assets and dividends. The plan provided that each stockholder should have the privilege of subscribing on July 1, 1901, for 1 share of preferred stock for every 2 shares of the present (old) stock registered in his name on the books of the company at the rate of 40 p. c. in cash and 60 p. c. in the present stock of the company at a valuation of $60 per share. It was the stated purpose of the directors to use immediately the $1,000,000 realized by the issue of preferred stock for the liquidation of the debts of the company and the improvement of the property. This plan was carried through, and the new stock was issued in June, 1901, and cash was realized on the new issue amounting to $1,000,000.

At the same meeting the stockholders authorized the directors of the company to make and issue a series of general mortgage bonds of the company amounting in the aggregate to the sum of $2,500,000, to bear interest at the rate of 5 p. c. per annum, payable semi-annually, and to be of such form and tenor, and maturing at such dates, as the board of directors may determine. The board of directors were further authorized and empowered to make and issue a mortgage on all the property and franchises of the company now held and owned by it, and upon other property and franchises which it may hereafter acquire, to secure the payment of said bonds; that of the said $2,500,000 of bonds $1,000,000 shall be issued to provide the means to liquidate the indebtedness of the company, and to pay for betterments, improvements and extensions to the property of the company, and the remaining $1,500,000 of bonds shall be delivered to the trustees of the mortgage, to be issued from time to time, for the acquisition of additional property and for construction work, paving, improvements, betterments, and the future requirements of the company, under such conditions as may be inserted in the mortgage by the board of directors for the protection of the bondholders, including the $1,000,000 realized by the issue of preferred stock; the total expenditure contemplated will require about $2,000,000, including the payment of the collateral trust bonds, floating debt, paving claims, and the cost of fully equipping and improving the property. It is expected that the money realized from the sale of the preferred stock will cover all of the expenditures to be made during 1902, and that it will not be necessary to sell any of the $1,000,000 of bonds authorized until 1903.

The 1st refunding mortgage bonds were authorized to the amount of $1,250,000 for the purpose of consolidating and refunding the company's indebtedness, and to provide the means for permanent improvements and betterments. Of these bonds, $750,000 are outstanding; $250,000 are reserved to retire a like amount of underlying bonds, and the balance ($250,000) is reserved for future extensions and betterments at the rate of 75 p. c. of actual cost; to be issued only when the net earnings are equal to at least twice the interest charges on the bonds outstanding and those proposed to be then issued. They are secured by a first lien on the entire street railway system in the city of Erie, subject only to a prior lien of $250,000 maturing in 1919 on a portion of the road. They are additionally secured by deposit of all of the capital stock of the Erie City Passenger Ry. and the Erie, Reed Park and Lakeside Street Ry. Cos. and by mortgage of Waldameer Park. The trust deed contains a provision for a sinking fund, which should provide for the retirement of the whole issue at or before maturity. This sinking fund calls for an annual payment, beginning April 1, 1906, of 1 p. c. of the bonds outstanding, which is to be increased in 1916 to 1½ p. c. of the bonds then outstanding. The funds so raised shall be, from time to time, invested by the trustee in the bonds of this company, provided they can be obtained at a price which will yield an interest return of at least 3½ p. c. per annum. Should the trustees be unable to obtain the bonds of this company, they may invest such funds in certain classes of approved bonds. All securities so held by the sinking fund shall be kept alive and interest thereon shall accrue to the benefit of this fund.

AMERICAN AGRICULTURAL CHEMICAL CO.—Organized under special charter granted by the Legislature of the State of Connecticut in Jan., 1893. Incorp. as the Agawa Co., on June 30, 1893; charter amended in Jan., 1899, and name changed to the present title on May 26, 1899. The business of the company is manufacturing and selling chemical fertilizers, boneblack, grease, glue, gelatine, and any and all by-products. For detailed statement showing the different plants and other properties acquired by this company, see MANUAL for 1902, page 1088.

Since its organization, the company has, from time to time, purchased desirable going concerns which were not included in the prospectus, and has also purchased, under an existing option, a valuable factory property in Baltimore, formerly leased, the aggregate of cash considerations for these properties being about $817,000. The company has also secured, for cash, all of the 12,500 shares capital stock of the Peace River Phosphate Mining Company, which owns and operates one of the most valuable phosphate properties in Florida.

On March 25, 1903, there were listed on the New York Stock Exchange $1,000,000 additional preferred stock and $500,000 additional common stock, making the total amounts listed to that date—$18,153,000 preferred stock and $17,215,600 common stock. These increases of stock were made for the following named purposes: (1) For the purchase of the property, assets, good will and trade of the Bowker Fertilizer Co. (a corporation organized under the laws of Mass., Jan. 14, 1879), with plants located at Elizabethport, N. J., at or near Cincinnati, O., and Brighton, Mass., the purchase of which the American Agricultural Co. has substantially completed, and said property, real and personal, has been conveyed to that company. Under the terms of purchase the properties of the Bowker Fertilizer Co. were to be paid for in stock of the American Agricultural Co. in lieu of cash. The capital stock of the Bowker Fertilizer Co. is $1,000,000, and that stock after liquidation of the receivables and the payment of the debts is to be delivered to the American Agricultural Co. These properties have been duly appraised at $907,923. (2) For other properties acquired, the value of which (including 6,941 shares Peace River Phosphate Mining Co.'s stock, $509,401) has been appraised at $906,837. This amount was paid in cash, and no stock, bonds or mortgages were issued in payment therefor. Of the 12,500 shares capital stock ($1,250,000) of the Peace River Phosphate Mining Co. the American Agricultural now owns 12,473 shares ($1,247,300).

AMERICAN BICYCLE CO.—Incorp. May 12, 1899, under the laws of New Jersey for the manufacturing and selling of bicycles and all parts and accessories thereof, and the carrying on of any trade or business incident thereto, the manufacturing and selling of automobiles, vehicles and electric and other motors, etc., and "the carrying on of any manufacturing or mercantile business lawful in the place where such business shall be carried on." The company at its incorporation acquired as going concerns, substantially all the real and personal property, including the business, good will, patents, trade marks, stock manufactured and in process, land, buildings, etc., of a number of companies, a detailed statement respecting which is printed on page 1089 of the MANUAL for 1902.

The capital stocks of the vendor companies were all acquired as muniments of title, except the capital stock of the Pope Manufacturing Co., which was retained by the vendors for the purpose of voluntary dissolution. The certificates for all the shares of these capital stocks so owned and held by the company are in its possession, but are not treated in the accounts as an asset, being held merely to protect its rights to the use of the names of the various corporations, and to enable it to dissolve these corporations as and when it is thought desirable to do so. The American Bicycle Co. still owns all of the capital stock so acquired, except that of the American Saddle Co., which has been in effect exchanged into stock of The Automobile and Cycle Parts Co., and of the Hartford Rubber Works Co., the Peoria Rubber and Mfg. Co., and the Indianapolis Rubber Co., the stocks of which were sold with the rubber properties.

On Dec. 19, 1901, the American Cycle Manufacturing Co. and the International Motor Car Co. were organized to take over respectively the bicycle business and the automobile business of this company (see statements subjoined).

On Aug. 30, 1902, Albert A. Pope, R. Lindsay Coleman and John A. Miller were appointed receivers for this company, default having been made in payment of debenture interest due Sept. 1, 1902. Under date of Dec. 15, 1902, a plan of reorganization of the company's finances was promulgated which (with modifications, Jan. 26, 1903) has been declared operative. The plan provides for the foreclosure of the property and the formation of a new company with authority to issue (1) $10,000,000 common stock, (2) $2,500,000 1st preferred 6 p. c. cumulative stock (subject to call at 110) and (3) $10,000,000 2d preferred 5 p. c. stock, cumulative after two years from Feb. 1, 1903. Old debentures receive par in new second preferred stock, and the old preferred and old common stock 50 p. c. and 25 p. c., respectively, in new common stock, and in addition $9 each per share in new 1st preferred stock for a cash assessment. Each share of 2d preferred stock is entitled to receive or to have set apart for it (after payment of the full cumulative dividend on the 1st preferred stock), a non-cumulative dividend, if declared, to the extent of 5 p. c. per annum, beginning Feb. 1, 1903, payable out of the surplus of net profits of each fiscal year, before any dividend for such year shall be paid or set apart on the common stock, and without deduction for taxes which the new company may be required at any time to pay or to retain therefrom. From and after Feb. 1, 1905, such 5 p. c. dividends shall be cumulative, but such accumulation of dividends shall not apply to any period previous to Feb. 1, 1905. This 2d preferred stock shall be preferential over the common stock in respect both to the assets and dividends. In Oct., 1902, receivers' certificates to the amount of $500,000, to run one year at 6 p. c., were authorized.

In Feb., 1903, the Pope Manufacturing Co. was incorporated under the laws of New Jersey to acquire the property after foreclosure sale.

The preferred stock is entitled to receive non-cumulative dividends at the rate of 6 p. c. per annum before any dividends for the same year are paid upon the common stock, same to be paid without deduction on account of national or other taxes. Its participation in the profits is thus limited in consideration of the security and income given by its preference in dividends and in final liquidation. The preferred stock is subject to compulsory redemption at $105 per share, and has like voting power with the common stock. The authorized amount of preferred stock is $14,562,300, but $4,363,700 of that amount is reserved from sale and can be disposed of only by the action of at least 12-15ths of the entire board of directors, upon ten days' notice of a meeting called for that purpose.

The common stock is entitled to all the dividends declared in excess of 6 p. c. per annum upon the pref. stock. This stock may be increased under the provisions and restrictions of the law of the State of New Jersey, and in conformity with the regulations of the New York Stock Exchange, and thus furnish means to retire the debenture bonds and preference stock.

The gold debenture bonds are part of an authorized issue of $5,000,000; they originally bore interest at the rate of 8 p. c. per annum, payable in gold Feb., May., Aug. and Nov., at the transfer agency, and matured Nov. 1, 1900, but the $3,000,000 now outstanding have been extended for a period of fifteen years from that date at the rate of 4½ p. c. per annum. They are for $1,000 gold each, in coupon form. Interest is free of all taxes. There is no mortgage on any portion of the company's property or any of the properties in which this company is interested, and no mortgage can be made without the written approval of the holders of 80 p. c. in amount of the debenture bonds outstanding. These bonds were issued to fund temporary loans and to provide working capital, and are subject to compulsory redemption at 110 and accrued interest upon not less than sixty days' notice. Of these bonds, $210,000 were drawn and cancelled on Aug. 1, 1892; $224,000 on Aug. 1, 1893; $240,000 on Aug. 1, 1894; $258,000 on Aug. 1, 1895; on Aug. 19, 1900, $68,000, leaving outstanding $3,000,000 of authorized issue. Of the fund of $102,516 reserved out of profits for depreciation, bad and doubtful accounts, the larger portion is allowed for wear and deterioration of plants, after all losses anticipated from bad accounts have been written off. The company still owns some plants, not covered by its general mortgage, which are useless for malting purposes, the sale of which from time to time, will furnish funds applicable to redeem bonds. AMERICAN TELEPHONE AND TELEGRAPH CO.—Incorp. Feb. 28, 1885, under the laws of the State of New York; organized for the purpose of constructing, buying, owning, leasing, or otherwise obtaining lines of electric telegraph partly within and partly beyond the limits of the State of New York, and of equipping, using, operating, or otherwise maintaining the same. This company formerly controlled only the long distance lines of the American Bell Telephone Co. (see MANUAL for 1900, page 1061), but at the close of the year 1899 the property and business of that company, except its holdings in the stock of this company, were taken over by this company. The exchange of shares under the circular of the American Bell Telephone Co., dated April 18, 1900, by the terms of which two shares of the stock of the American Telephone and Telegraph Co. were given for each share of The American Bell Telephone Co., has been substantially completed. By a circular dated April 18, 1900, this company offered for subscriptions by its shareholders one new share for each five shares held by them after the exchange above referred to. Of the total number of shares so offered (103,545), 103,018 were subscribed for, and 52,175 shares were issued on Aug. 1, 1900, and 50,843 shares on Jan. 15, 1901; those remaining (527 shares) were sold by auction and issued in Feb., 1901.

The first long distance line constructed was that between New York and Philadelphia, and was completed in 1886. In 1887 it was extended from New York to Albany and to Boston. In 1888 an extension was built from Albany to Buffalo, and new lines were built from Chicago to Milwaukee and from Boston to Providence. In 1889 an extension was built from Philadelphia to Baltimore and to Washington, and a second line was completed between New York and Boston. The long distance line from New York to Chicago was opened on Oct. 18, 1892, and an extension of it to Boston on Feb. 7, 1893. The long distance lines extend from nearly all the important cities on the Atlantic seaboard throughout the country as far west as St. Paul, Minneapolis, Omaha, Kansas City, Little Rock, and New Orleans, forming main lines over which telephonic communication between practically all of the exchange stations within the territorial limits above defined may be established.

OPERATIONS.—The net output of telephones during the year ending Dec. 31, 1902, was 624,714, making the total number in the hands of licensees 3,150,320. The number of exchange stations at the end of the year was 1,277,983, an increase of 257,336. The total mileage of wire for exchange and toll service was 3,281,662 miles, of which 836,378 miles were added during the year. Including the traffic over the Long Distance lines, the daily average of toll connections was about 239,700, and of exchange connections about 9,323,000, as against corresponding figures in 1901 of 187,378 and 7,531,761; the total daily average for 1902 of connections both toll and exchange reaching 9,562,700, or at the rate of about 3,079,000,000 per year.

The expenditure for new construction, to supply the increasing demand of the public for telephone service, was larger than that of previous years, the proportion of increase bearing a close relation to that of the business of the past year. The total amount added to construction and real estate by all the companies constituting this system in the United States during the year 1902, was:

For exchanges, $26,014,800; for toll lines, $8,282,900; for land and buildings, $3,038,800—total, $37,336,500. The amount added in 1900 was $31,619,100; in 1901, $31,005,400. The expenditure by the company in 1902 for the construction, equipment, and supplies required for its Long Distance lines was $3,379,982, making the total investment in Long Distance lines and equipment to the close of the year $22,496,191.

EXCHANGE CONNECTIONS.—The estimated number of exchange connections daily in the United States, made up from actual count in most of the exchanges, is 9,322,951, or a total per year of about 3,002,000,000. The number of daily calls per station varies in different exchanges, the average throughout the United States being 7 3-10.

TOLL CONNECTIONS.—The average daily number of toll connections is 239,689, or a total per year of about 77,180,000.

The number of instruments in the hands of licensees, under rental, was 3,150,320 on Dec. 20. 1902; 2,525,606, on Dec. 31, 1901; 1,952,412, on Dec. 20, 1900; 1,580,101 on Dec. 20, 1899; 1,124,846 on Dec. 20, 1898; 919,121 on Dec. 20, 1897; 772,627 on Dec. 20, 1896; 674,976 on Dec. 20, 1895; 582,506 on Dec. 20, 1894; 566,491 on Dec. 20, 1893; and 552,720 on Dec. 20, 1892.

During the past year this company acquired a controlling interest in the Western Telephone and Telegraph Co. The Western company purchased the majority interests in the stocks of The Cleveland Telephone Co., the Michigan Telephone Co., The Northwestern Telephone Exchange Co., The Southwestern Telegraph and Telephone Co. and the Wisconsin Telephone Co., before held by The Erie Telegraph and Telephone Co. The revenue of the Western Co. derived from its holdings of stocks and other securities of the above-named companies, during the first year of its organization, has been sufficient to provide for two dividends of 2 p. c. each upon its preferred stock, which were paid in Aug., 1902, and Feb., 1903, respectively. The second dividend does not appear in the accounts of the company for 1902. During the past year, by agreement between this company and the operating companies with which it has contracts, a new and simpler plan for determining the amounts to be paid this company as rental for telephones has been adopted, which plan involved a substantial reduction in the rentals paid to this company from and after Jan. 1, 1902. This modification of the rental arrangement was clearly justified by the existing conditions.

ASSOCIATED MERCHANTS CO. (THE).—Organized under a charter granted May 9, 1893, by the Legislature of the State of Connecticut, incorporating The Columbian Construction Co.; charter amended and name changed to the Associated Merchants Co. on Jan. 25, 1901. The company is authorized to contract for, acquire, receive in trust or otherwise, hold and sell real estate and personal property, and the bonds, stocks, obligations, securities, and purchases of any other corporation, company, or association, and to deal directly in dry goods. The business of the corporation, it is provided, shall be managed by a board of directors. The company has acquired and now holds: (1) 45,001 out of the 90,000 total shares of stock of the H. B. Claflin Co., as follows—6,400 shares of 1st preferred out of a total of 26,003 shares, 19,301 shares of 2d preferred out of a total of 25,706, and 19,300 shares of common out of a total of 38,291 shares; (2) 12,000 shares of the preferred stock, and 6,000 shares of the common stock of the Adams Dry Goods Co., out of a total of 18,000 shares of preferred and 18,000 shares of common stock, and (3) the entire stock and bonded obligation of James McCreery & Co., representing tangible assets of $1,800,000, besides leases and good will. The Adams Dry Goods Co. conducts business on the entire block, extending from 21st to 22d Streets, on Sixth Avenue, in the city of New York. James McCreery & Co. is a dry goods business duly incorporated, on the south side of 23d St., at or near the corner of Sixth Avenue, and extending through from 23d to 22d Street. The McCreery lease is dated Nov. 15, 1900, and has 21 years to run, expiring Nov. 15, 1921. The total capitalization and debt is $3,600,000 par value.

Recently, acting for himself, John Claflin purchased the business of H. O'Neill & Co., which occupies the west side of Sixth Avenue, from 20th to 21st Streets. For a while he will carry on the business at his own risk, but for the benefit of The Associated Merchants Co. When necessary alterations and improvements shall have been completed, he will, if the company so elect, turn the business over to the company at cost and interest. It seems likely that this plant when modernized will add materially to the company's earnings.

INCOME AND DIVIDEND ACCOUNT, year ending Aug. 1, 1903.—Net earnings, $1,057,523. Dividends paid (1st preferred, $246,693; 2d preferred, $303,353; common, 5¼ p. c., $263,200), $813,246. Surplus, $244,277; surplus to Aug. 1, 1902, $520,878—total, $765,155.

The Associated Merchants Co. transacts no mercantile business directly. It owns no real estate, but owns stocks and obligations of other businesses. It has no bonded or mortgage debt, or any debt of any kind whatever, nor is it directly or indirectly liable for any debt.

G. Gunther's Sons common stock, $5,000,000—total, $15,788,068.

CAPITAL STOCK.—The authorized capital stock of The Associated Merchants Co. is $20,000,000, divided into $10,000,000 of 1st preferred 5 p. c. cumulative stock, $5,000,000 of 2d preferred cumulative stock, and $5,000,000 of common stock. Of the $10,000,000 1st preferred stock, $5,000,000 has been sold and distributed and $5,000,000 remains unsold; of the $5,000,000 sold, $72,500 has been converted into 2d preferred and common stock, the holders having that privilege at any time when the transfer books are open. Each share of stock, of whatever class, is entitled to one vote.

The 1st preferred cumulative stock is entitled to receive quarter-yearly dividends at the rate of 5 p. c. per annum of the par value of their shares, and no more. This right is prior to and superior to the right of either the 2d preferred stock or the common stock to receive any dividend whatever. The dividends on the 1st preferred stock shall be cumulative, so that if in any quarter year dividends at the rate of said 5 p. c. per annum shall not be paid thereon the deficiency shall be paid before any dividends shall be paid upon or set apart for any other stock. In the event of the liquidation or dissolution or winding up, whether voluntary or involuntary, of the company, the holders of the 1st preferred cumulative stock shall be entitled to be paid in full, both the principal of their shares and the dividends accrued thereon, before any amount shall be paid to the holders, either of the 2d preferred stock or of the common stock. Any of the shares of the 1st preferred stock may, at the election of the respective holders thereof, be converted at any time, when the stock transfer books of the company are open, into the 2d preferred stock or into the common stock of the company, share for share. The total capital stock of the corporation shall not be increased by such conversion.

The 2d preferred stock and the common stock have been issued for value, but both the 2d preferred and the common stock are largely held by a single interest. The 2d preferred stock is entitled to dividends at the rate of 6 p. c. per annum and no more. This right is prior to the right of the common stock to receive any dividend whatever. These dividends are cumulative, and in the event of liquidation or dissolution of the corporation the holders of the 2d preferred cumulative stock shall be entitled to be paid in full, both the principal of their shares and the dividends accrued thereon, before any amount shall be paid to the holders of the common stock. The common stock is entitled to all the surplus earnings, but only when and as the same shall be declared as dividends, and only after dividends upon the 1st preferred cumulative stock and the 2d preferred cumulative stock have been paid or shall have been set apart. In case of liquidation the common stockholders are entitled to all the assets of the company remaining after the 1st preferred stock and the 2d preferred stock shall have been liquidated in full, both principal and accrued dividends. The capital stock, and any class thereof, may be increased or decreased from time to time, but only by vote of the holders of the majority of the shares of each class of stock then outstanding.

Co., the capital stock of which ($200,000) was owned by this company. The rental reserved assures the Chicago Company ample returns for the value and earning capacity of the property thus leased. On Jan. 1, 1898, an agreement of consolidation was entered into between the Chicago and Indiana State Line Ry. Co. and the Chicago, Hammond and Western RR. Co., whereby these two companies were merged into a new corporation, formed for this purpose, and called the Chicago Junction Ry. Co., with a capital of $2,200,000, the stock of these two first-named companies being exchanged for the stock of the new company, share for share. All the stock of the consolidated company is now owned by this company, except the few shares held by and qualifying the directors. This consolidation took effect upon the completion of the Chicago, Hammond and Western RR., April 1, 1898. The earnings of the trackage system of the Chicago Company, heretofore shown in its statement, will appear after that date in the statement of the new corporation, the Chicago Junction Ry. Co.

COLONIAL SUGARS CO.—Incorporated under the laws of the State of New Jersey, June 19, 1902. Formed by the merging of the Gramercy Sugar Co., Gramercy Finance Co., and Damuji Co., all of whose properties were taken over by the new company. The company's business is the production of raw sugars on its estates in Cuba and Louisiana, and the refining of the product at its refinery at Gramercy, La.

The property owned and controlled in Cuba comprises about 54,655 acres of land (13,000 acres now in cultivation) near Cienfuegos, adjoining tide water, which are capable, when developed, of producing 400,000 tons of cane; 55 miles of railroad with equipment of 8 locomotives and 435 cars; central factory equipped with machinery capable of crushing 250,000 tons of cane during season; distillery for making rum; 130 miles of telephone lines; steam tug and three lighters; 1,100 horses, oxen and mules—in all valued at $2,500,000. This is exclusive of value of growing crops, sugar and rum on hand. The property owned in Louisiana comprises a modern sugar refinery capable of daily output of 1,200 barrels of standard refined sugar; central factory for crushing cane, capable of crushing 75,000 tons in season; four sugar plantations containing about 6,480 acres of land, capable of producing 75,000 tons, fully equipped with mules and agricultural implements—in all valued at $1,750,000. This is exclusive of value of sugar, molasses, cash on hand and accounts receivable. Total value of the property, real and personal, of the company, $6,000,000.

The company raises its own cane on its own lands, crushing the cane in its own central factories, producing raw sugar, and refining it into standard high-grade sugar at its own refinery. In addition to the economies resulting from these combined advantages, all middlemen's profits are saved, and the company, when its lands and plants are fully developed, will be independent of raw sugar markets. The sugar crops in Louisiana and Cuba mature at different seasons—that in Louisiana in the late fall, immediately followed by that of Cuba; a sequence convenient for a continuous supply of its own raw sugars for the operation of the company's refinery.

GENERAL INCOME ACCOUNT, 8 months ending June 30, 1903.—Profits from operation of properties, $353,539; additional profits (interest and discount, $1,088; profits of four stores, $3,693; exchange New York funds, $40,331), $45,112—total, $398,651. Co., $331,200, valued at $303,714; The Colorado and Wyoming Ry. Co., $99,000—total (face value, $1,061,100), $940,128.

Preferred stock is entitled to dividends of 8 p. c. per annum before common receives any dividends. At a special meeting of the stockholders, held Sept. 25, 1899, the articles of incorporation of the company were amended, increasing the authorized capitalization to $25,000,000 consisting of $23,000,000 of common and $2,000,000 of preferred stock, the entire increase of $12,000,000 being in common stock. The purposes of this increase are fully stated on page 1107 of the MANUAL for 1901. At a special meeting of the stockholders, held July 13, 1901, it was voted to increase the capital stock to $40,000,000 (by the issue of $15,000,000 additional common stock), and to authorize an issue of $15,000,000 5 p. c. 10-yr. gold debentures, convertible into common stock. The purpose of these issues is to furnish the capital required for auxiliary plants not before provided for, and for further diversifying the products manufactured, and for such capital as is needed to handle the increased business. (See description of Convertible Debentures below.)

Funded debt consisted, June 30, 1903, of $640,000 Colorado Fuel 6 p. c. 30-yr. gold bonds, due May 1, 1919, interest May and Nov. at the Atlantic Trust Co., New York; $5,355,000 gen. mtge. 5 p. c. 50-yr. $1,000 gold bonds, due Feb. 1, 1943, interest Feb. 1 and Aug 1 at the Chase National Bank, New York, and $14,068,000 5 p. c. 10-yr. $1,000 convertible gold debenture bonds, due Aug. 1, 1911, interest Feb. 1 and Aug. 1.

The gen. mtge. bonds are part of an authorized issue of $6,000,000, of which $2,000,000 were sold for the purpose of supplying working capital for improvements at the steel works, for opening and equipping additional mines and building additional coke ovens. The remaining bonds are retained by the trustee to retire the outstanding bonds of the Colorado Coal and Iron Co. and of the Colorado Fuel Co. These bonds are secured by mortgage to the Central Trust Co., New York, N. Y., as trustee, on all the property and assets of the company, subject to prior liens. The property securing the mortgage consists principally of coal lands owned, 69,265 acres; coal lands leased, 3,670 acres—total, 72,935 acres. Iron lands owned, 2,452 acres; iron and steel plant, water supply, reservoirs, etc., lands owned, 1,045 acres; unclassified lands owned, 600 acres—total, 77,032 acres. Town lots, Pueblo, Walsenburg, Crested Butte, Rouse and Sopris, 593 lots. Fifteen coal mines in operation, daily capacity, 12,000 tons; 1 coal mine in course of development; 851 coke ovens in operation, daily capacity, 1,000 tons; two iron mines in operation, daily capacity, 1,000 tons; iron and steel plant near Pueblo, Col., etc., etc. Of the foregoing property 13,035 acres of coal lands are not covered by any of the prior mortgages, so that as to that property the Colorado Fuel and Iron Co. mortgage is a first and only lien. (See MANUAL for 1902, page 1114.)

The general mortgage provides for the setting aside of a sinking fund of 2 cents per ton on all coal mined and 5 cents per ton on all iron mined. This fund can be invested by the company in the purchase of coal or iron lands to replace those mined out, but if not so invested shall be paid to the trustee; or a majority of the bondholders may demand that the entire amount be paid to the trustee. The trustee is authorized to invest the sinking fund in the general mtge. bonds of the company by purchases in the open market, or can redeem by lot at 105 and accrued interest on Feb. 1 each year. On Sept. 1, 1902, the entire amount of these bonds ($6,000,000) had been issued or provision made for their issuance, in pursuance of the terms of the mortgage.

The 5 p. c. convertible gold debentures were authorized to the amount of $15,000,000, at a special meeting of the stockholders on July 13, 1901, and $10,000,000 of them were issued at that time. Under a provision of the indenture, outlined hereunder, $932,000 of that amount has been converted into common stock, leaving $9,068,000 of it outstanding. The remaining $5,000,000 of the authorized issue was reserved for the acquisition of additional property, and has been issued since the date of the general balance sheet, making a total of $14,068,000 now outstanding. The debentures are dated Aug. 1, 1901, and will mature Aug. 1, 1911; interest is payable Feb. 1 and Aug. 1. Both principal and interest are payable in gold, free of all taxes, at the office or agency of the company in the city of New York. The bonds are for $1,000 each, in coupon form, with privilege of registration as to principal alone or as to both principal and interest. They may be redeemed, as a whole or in part, on any interest day after Aug. 1, 1906, at 105 p. c. and accrued interest. Until and including Aug. 1, 1906, they may be converted into common stock at par, $15,000,000 of such stock being held in the treasury of the company to be issued for no other purpose during the period in which conversion may be made. Until the debentures are retired and paid off, no preferred stock in addition to the $2,000,000 outstanding can be created or issued, and no mortgage or other incumbrance can be placed upon the property of the company, nor any bonds or other debentures be issued, except such bonds as are provided for in the mortgages or deeds of trust created prior to July 1, 1901, and except to refund the bonds outstanding under such mortgages or deeds of trust; but in no event shall refunding bonds exceed the bonds they shall be issued to replace, either as to their amount or as to the rate of interest upon them. Trustee: Illinois Trust and Savings Bank, Chicago, Ill.

Colorado Coal and Iron Co.'s Bonds.—The remaining C. C. & I. Co. consolidated mtge. 6 p. c. bonds, amounting to $2,441,000, were purchased and retired during the year, and the mortgage released, and the same amount of Colorado Fuel and Iron Co. 5 p. c. general mtge. bonds were issued in their stead.

The stocks deposited of the Mount Morris Electric Light Co., New York Heat, Light and Power Co., Borough of Manhattan Electric Co., Block Lighting and Power Co. No. 1, Manhattan Lighting Co., and the North River Electric Light and Power Co. are the entire stock issues of those companies.

The entire stock issue of the Consolidated Telegraph and Electric Subway Co. is $1,875,000. Of the $15,000,000 bonds authorized by the 1st mortgage of the Power Co., $11,500,000 have been issued, and $3,500,000 are retained by the trustee to be disposed of only for the purposes of acquiring additional plants and properties or improving the company's properties or the properties of controlled companies whose stocks are or shall be made subject to the lien of the mortgage and the purchase money mortgage.

The purchase money bonds of the N. Y. G. & E. L., H. & P. Co. were issued in exchange for the $9,200,000 capital stock of the Edison Electric Illuminating Co. of New York. Authorized amount, $21,000,000; actually issued, $20,929,391; balance in hands of trustee to take up outstanding Edison stock. They are secured by deposit of that stock; by a mortgage on the properties of the company, subject to the lien of the company's 1st mortgage, and by a $4,000,000 cash guaranty fund deposited with the Central Trust Co. of New York for investment in approved 1st mtge. bonds. It is provided that this guaranty fund may be invested in extensions of the Edison property. The new company (New York Edison Co.) executed a supplementary mortgage to the Central Trust Co., trustee, covering all the property, rights, franchises, etc., as additional security for the purchase money mtge. bonds. The purchase money bonds are subject to redemption at par and accrued interest at any time previous to Feb. 1, 1902.

The 1st mtge. bonds of the Edison Electric Illuminating Co. of N. Y. are secured by a mortgage to the Central Trust Co. of New York, trustee, for $5,000,000, all of which are issued. During 1893, $688,000 of these bonds were converted into stock, leaving outstanding Jan. 1, 1896, $4,312,000. The privilege of conversion expired in 1895. The bonds are an absolute mortgage on the company's property, real, personal, and mixed, acquired or to be acquired, constituting plant and appurtenances, in the city of New York, below 70th St., together with all corporate rights and franchises, licenses, patents, etc. These bonds were convertible into stock on the 21st of Jan. and July from 1892 to 1895, inclusive. It was provided that whenever 75 p. c. of the bonds should have exercised the right of conversion the company might require the holders of the remaining bonds to convert them into stock or to accept payment for them at 10 p. c. premium; or at any time after Sept. 1, 1900, whether such 75 p. c. shall have consented or not, the company may pay the bonds in cash at 110 p. c.

The 1st consol. mtge. bonds of the Edison Elect. Ill. Co. of N. Y. are secured by mortgage to the Morton Trust Co. of New York, trustee. The authorized issue is $15,000,000, of which $4,312,000 are reserved to pay off, at or before maturity, the existing 1st mtge. 5s of the Illuminating Co., due 1910; and $8,500,000 bonds remain in the treasury for future use. The mortgage provides that these last-mentioned bonds shall be issued from time to time, for the purpose of new construction and acquisition of property, to an extent not exceeding $1,000,000 in any one year, but with a restriction that the entire outstanding bonded debt of this and the previous issues shall at no time exceed the amount of outstanding paid-up capital stock. In addition to covering all the valuable real estate of the company on which its five central stations are erected (one of them the largest in the world) the consol. mtge. bonds are secured on all the company's property and franchises on Manhattan Island now owned, and all of which may hereafter be acquired as appurtenant thereto, and all other property of every kind acquired, subject only to the existing $4,312,000 1st mtge. 5s until redeemed. In addition, there are deposited with the trustee, as further security for the 1st consols, the entire capital stock and bond issues of the Manhattan Electric Light Co. and Harlem Lighting Co.

"Royalty Fund Investments" in above balance sheet consist of 36,404 acres of coal lands, $1,800,762; securities ($102,000 bonds), cost, $102,612; cash with Guaranty Trust Co., $770—total, $1,904,144.

"Other Investments" in above balance sheet consist of 2 iron steamers, $110,200; 3 sea-going tugs and 16 barges, $500,139; 66 canal boats, $52,135; interest in three schooners, $48,725; fixed machinery and other mining fixtures, $271,836—total, $983,035.

Funded debt outstanding, Dec. 31, 1902, consisted of $1,000,000 C. & P. RR. 1st mtge. 5 p. c. 30-yr. $1,000 bonds, due May 1, 1921, interest May and Nov., and $750,000 Consolidation Coal Co. 4½ p. c. 1st mtge. 25-yr. gold bonds, due July 1, 1922, interest Jan. and July. Against this there is invested in the sinking fund of the C. & P. RR. 1st mtge. bonds, $233,309, and in the sinking fund for 4½s, $127,213. Interest payable in New York, N.Y., at the office of the Guaranty Trust Co. The total issue of 4½s was $750,000, of which $600,000 were sold at par, and $150,000 are still in the treasury. A provision in this mortgage creates a sinking fund for the redemption of the bonds at maturity, by requiring the company to deposit annually with the trustee a sum equal to one cent per ton on the entire coal output, with a minimum of $18,000, to be invested by the trustee at a price not to exceed $1,050 and accrued interest. The sum of $18,000 was therefore, on Nov. 1, 1902, paid over to the trustee, who, being unable to secure any of the bonds by purchase at the stipulated price, drew the requisite number. These bonds (24) together with the 92 drawn or purchased in the preceding four years, are now in the custody of the trustee as a sinking fund. The bonds are secured by a mortgage of the company's lands. The mortgage securing the C. & P. RR. 5 p. c. bonds requires the company to deposit annually $25,000 with the trustees under it, to be invested by them and held as a sinking fund; this was done on Dec. 1, 1902.

American Tobacco Co. (The).—Incorporated for fifty years, Jan. 21, 1890, under laws of New Jersey, for the purpose of curing leaf tobacco, buying, manufacturing and selling tobacco in all its forms, and establishing factories, agencies and depots for the sale and distribution thereof, besides doing all things incidental to the business of trading and manufacturing aforesaid, etc., with power to carry on its business in all other States and Territories of the United States, and in Canada, Great Britain, and all other foreign countries. Butler Tobacco Co., purchased in 1895, the Drummond Tobacco Co., and the Brown Tobacco Co., purchased in 1898—all of St. Louis, Mo., receiving therefor preferred and common stock of Continental Tobacco Co. amounting to $30,274,200 (see MANUAL for 1901, page 1098). This company sold to the American Snuff Co. all assets, brands, real estate and good will pertaining to its snuff business, receiving therefor preferred and common stock in that company amounting to $4,405,300 at par.

The preferred stock is entitled to a preferential dividend, not exceeding 8 p. c. non-cumulative, payable quarterly before any earnings go to the holders of the common stock. Upon dissolution or liquidation of the corporation, the preferred stock must be redeemed at par before any amount is paid to the holders of the common stock. The preferred stock has equal voting power at stockholders' meetings with the common stock. This equality in voting power with the common stock is share for share, and not value for value; the preferred stock is $100 per share and the common stock is $50 per share, but one share of common, although of only half the par value of a share of preferred stock, has equal voting power with it.

Among the assets acquired by the purchase of the Union Tobacco Co. of America were $3,000,000 in cash, 157,273 shares out of a total of 160,000 shares (par, $25) of the capital stock of Blackwell's-Durham Tobacco Co., and all other assets, tools, machinery, tobacco and stocks in other companies owned by the Union Tobacco Co. of America on Feb. 1, 1899.

Capital stock authorized, $100,000,000, consisting of $50,000,000 7 p. c. non-cumulative preferred stock and $50,000,000 common stock. Capital stock outstanding ($48,844,600 preferred and $48,846,100 common), $97,690,700. In April, 1899, the authorized amount of both preferred and common stock was increased from $37,500,000 to $50,000,000. The preferred stock has priority over the common stock for non-cumulative dividends up to 7 p. c. per annum out of the net profits, and for its full par value out of the assets in the event of a dissolution of the corporation.

The authorized amount of the gold debenture bonds is $2,000,000; they are for $100, etc., each; were issued in 1900 and mature April 1, 1905, interest April and Oct., at office of Baring, Magoun & Co., New York, N. Y. These bonds to the amount of $1,581,100 issued to purchase the P. Lorillard Co.'s preferred stock. The preferred stock of P. Lorillard Co. amounts to $2,000,000, and it is an 8 p. c. cumulative preferred stock. These debentures were issued in payment for this stock at par; the whole issue cannot exceed $2,000,000, for the reason that the whole preferred stock of P. Lorillard Co. is only that amount. These gold debenture bonds do not differ in any respect from any other bill payable that bears interest at the rate of 7 p. c. per annum. They are not secured by any specific lien, and their payment, principal and interest, is a charge upon the whole property of Continental Tobacco Co., and, upon dissolution or liquidation of the company, they, like any other debt, would have to be paid in full before any amount could be payable to the holders of the preferred or common stocks.

CORN PRODUCTS CO.—Organized under the laws of the State of New Jersey, Feb. 6, 1902, and has acquired the capital stocks of the Glucose Sugar Refining Co. of New Jersey (see MANUAL for 1901, page 1122), the National Starch Co. of New Jersey (see MANUAL for 1901, page 1133), the Illinois Sugar Refining Co. of Illinois, the Charles Pope Glucose Co. of Illinois, and the New York Glucose Co. of New Jersey.

The Glucose Sugar Refining Co. was organized Aug. 7, 1897, under the laws of the State of New Jersey for the purpose of conducting the same kind and character of business which the Corn

Products Co. has power to conduct under its charter. Its manufacturing property consists of five plants located at Chicago, Peoria, and Rockford, Ill., and Marshalltown and Davenport, Ia. The combined capacities of these plants represent a grinding of about 105,000 bushels of corn daily. PLAN OF REORGANIZATION.—An agreement under date of Nov. 10, 1902, for the reorganization of this company's finances has been declared operative. This plan provides for (1) the return to depositors of their certificates of stock without cost; (2) the payment to the holders of consolidated bonds of their eighteen months' back interest in scrip, exchangeable in $1,000 denominations for new general mtge. bonds; (3) the issue of $1,000,000 6 p. c. 15-yr. prior lien bonds; (4) the issue of present treasury stock to the amount of $500,000; (5) the placing of a new 5 p. c. general mtge. of $8,000,000 upon the property, of which $2,580,000 will be issued in exchange for the present $2,400,000 consolidated mtge. bonds with the additional $180,000 for back interest; $3,260,000 to be reserved in the hands of the trustee to retire the underlying bonds (inclusive of the $1,000,000 prior lien bonds), and $2,160,000 to be held in the treasury for future extensions and other uses of the company under proper restrictions. DETROIT CITY GAS CO.—Organized in Michigan, Jan. 17, 1898, to manufacture and sell gas for lighting or other purposes in Detroit and Monroe, Mich., and the other cities, towns and villages through which its pipes may pass. On March 1, 1898, the company purchased the Detroit Gas Co., which up to that date had been supplying Detroit with artificial gas and Detroit and Monroe with natural gas for fuel and lighting purposes. This company is operating under an ordinance of the City Council, passed in 1893, granting ample authority for 30 years from that date.

At the time of this purchase the property of the Detroit Gas Co. was subject to the following indebtedness: (a) 1st mtge. 6 p. c. liens, all overdue, amounting to $2,117,697.38. (b) 2d mtge. lien of $2,000,000, being the mortgage dated Feb. 1, 1893, made by the Detroit Gas Co., to the New York Guaranty & Indemnity Co., as trustee, to secure the payment of 4,500 bonds of $1,000 each (known as consolidated bonds), dated Feb. 1, 1893, due Feb. 1, 1918, bearing interest at 5 p. c. per annum, payable Feb. 1 and Aug. 1, in each year. Of said 4,500 bonds, only 2,000 bonds, viz.: bonds Nos. 1 to 1,000, both inclusive, and 3,001 to 4,000, both inclusive (being all the bonds ever issued under said mortgage), were outstanding. Of the remainder of said 4,500 bonds, 2,000 bonds (to wit: Nos. 1,001 to 3,000 inclusive) were set aside to take up the above-mentioned 1st mtge. liens, but were never used for that purpose, and the remaining 500 bonds (to wit: Nos. 4,001 to 4,500 inclusive) were to be used by the Detroit Gas Co., for acquiring additional property. The 500 bonds last mentioned have been cancelled. (c) A 3d mtge. lien of $200,000, being the mortgage dated Aug. 1, 1894, made by the Detroit Gas Co. to the New York Guaranty & Indemnity Co., as trustee, to secure the payment of $200,000 bonds, due Aug. 1, 1904, known as income bonds. This mortgage was created by the Detroit Gas Co., for the purpose of funding the coupons of the consolidated bonds for two years, Aug., 1894, to Feb., 1896, inclusive. All but about $600 of said coupons have been so funded. (d) $300,000 of floating debt.

The Detroit City Gas Co. assumed the above obligations and executed its mortgage to the Continental Trust Co., trustee, dated Jan. 1, 1898, to secure 6,000 5 p. c. mtge. bonds of $1,000 each, dated Jan. 1, 1898, due Jan. 1, 1923, interest payable Jan. and July. The above overdue 1st mtge. 6 p. c. liens were assigned to the trustee and are kept alive for the benefit of the holders of Detroit City Gas Co. bonds. Of the Detroit Gas Co. consolidated bonds, $1,619,000 and $184,000 of the same company's income bonds have been exchanged for Detroit City Gas Co. bonds, and all the floating debt has been paid.

ELECTRIC VEHICLE CO. (THE).—Incorp. in 1897 under the laws of New Jersey. The first step in this organization was the union of patents owned by the Pope Manufacturing Co. for the construction of automobiles, and of those owned by the Electric Storage Battery Co. for the manufacture of storage batteries as far as applicable to automobiles. This was brought about by the organization of the Columbia Automobile Co., in which the Pope Manufacturing Co. and the Electric Storage Battery Co. became half owners respectively. The Columbia Automobile Co. then in its turn united all the patents owned by it with those owned by the Electric Vehicle Co., through the instrumentality of a new corporation entitled the "Columbia and Electric Vehicle Co.," reserving only its right to the manufacture of storage batteries, agreeing, however, to furnish these batteries as required by the Columbia and Electric Vehicle Co. at a price fixed at 20 p. c. above the actual cost of production. The stock of the Columbia and Electric Vehicle Co. was taken in equal proportion by the Electric Vehicle Co. and the Columbia Automobile Co. respectively. The Columbia and Electric Vehicle Co. acquired immediately, by purchase, the extensive plant of the Columbia Automobile Co. at Hartford, and shortly thereafter purchased the entire capital stock of the New Haven Carriage Co., and thus acquired control of that company's important plant at New Haven. About the same time the Electric Vehicle Co. purchased substantially the entire capital stock of the Siemens & Halske Electric Co. of America, for the purpose of utilizing the great facilities in Chicago of that concern for the manufacture of the electric equipment other than storage batteries required for the construction of electric vehicles.

The company is an original organization, but was incorporated for the purpose of taking over the business and properties of the George A. Fuller Co. of Illinois had conducted a large and profitable business in the construction of buildings. In April, 1901, it was decided that a larger working capital was required to develop the business, and the present company was incorporated. The assets of the Illinois corporation were duly appraised by a committee and found to consist of two classes; the first class consisting of securities, contracts and property readily convertible into cash, valued at $2,150,000, and the second class consisting of the good will, tools, machinery and other properties which were not readily convertible into cash, and the value of which was dependent upon the continuance of the business of the corporation, valued at $10,000,000. The corporation has power to conduct its business in all States and Territories of the United States and in all foreign countries. Excepting those carried at one dollar as below explained, the total par value of all stocks and bonds owned by the company is $17,489,363.07. The company's constantly growing business necessitates continuous large expenditures on its plants, to increase their manufacturing capacity, by acquiring more land (sixteen acres having been purchased during the past year), enlarging old and erecting new buildings, installing new machinery and for general improvements. On Jan. 31, 1893, the book value of all three factory plants was $3,958,528; from that date to Jan. 31, 1903 (over and above all ordinary expenditures for the maintenance and repair of buildings and machinery), additions of lands, buildings, machinery, etc., have been made at a total cost of $10,767,677—total book cost of the plants, $14,726,205. By the terms of the new mortgage, the bonds of these two prior mortgages, which are exchanged for new bonds under the privilege of exchange accorded to all bondholders, were to be delivered to the trustee of the new mortgage, and to be deposited and held as collateral security for the new bonds secured by it until all were deposited, when they were to be cancelled and the lien of the two prior mortgages extinguished. All of the bonds, of a par value of $3,000,000, issued under the aforesaid two prior mortgages, were so deposited with the trustee of the new mortgage, with the exception of bonds of the par value of $378,000, being 260 bonds of the issue of July 1, 1886, and 118 bonds of the issue of Jan. 1, 1893, and cash to the amount of $406,350, sufficient to redeem all of the aforesaid bonds, at the redemption price of 105 and accrued interest, on Jan. 1, 1903, was deposited with the Hudson Trust Co., trustee of the new mortgage, for that purpose.

LEHIGH AND WILKESBARRE COAL CO.—The Wilkesbarre Coal and Iron Co. was incorp. in June, 1865, and in Jan., 1874, was consolidated with the Honey Brook Coal Co. In 1877 the property was placed in the hands of receivers, who continued in control until Jan. 1, 1882, when the company again obtained possession. The company owns in fee in the Wyoming region 20,577 acres, in the Lehigh division 8,332 acres, making a total of 28,909 acres owned in fee. The company also holds under lease in the Wyoming division, Luzerne County, Pa., 2,847 acres, making a total owned and leased of 31,756 acres. There is no corporate relation between the Central RR. Co. of New Jersey and the Lehigh and Wilkesbarre Coal Co., the RR. Co. being a corporation organized under the laws of the State of New Jersey, and the Coal Co. a corporation organized under the laws of the State of Pennsylvania, the interest of the RR. Co. being through ownership of shares of capital stock of the Coal Co.

Owing to the change of the closing of the fiscal year of this company from Dec. 31 to June 30, no report later than that printed below (which is reprinted from the MANUAL for 1902) is published by the company. The next report will cover the period from Jan. 1, 1902, to June 30, 1903.

OPERATIONS.—During the year 1901, there were mined 3,414,735.05 tons of coal, an increase of 592,025.14 tons as compared with 1900, and 774,660.02 tons purchased, an increase of 300,692.03

tons over 1900. The tonnage sold during the year was 4,077,305.13 tons, an increase of 626,135.09 tons. The tonnage of prepared sizes sold, including lump, equalled 67.10 p. c. and of pea and smaller 32.90 p. c. as against 67.40 p. c. for prepared and 32.60 p. c. for the previous year. The output per day of collieries operated during the year averaged 17,290 tons, as compared with 16,856 tons output for previous year. From the company's lands, 3,216,434.06 tons of coal were mined during 1901. As every ton of coal mined from the company's property decreases its value and is an exhaustion of capital, in accordance with the practice of other companies, it was deemed advisable to set apart out of income ten cents per ton to represent depletion of the coal lands of the company. Depletion of Coal Lands Fund has been debited with the amounts credited to the mortgage sinking funds.

During the past year, the amount received from the railroad rental was $2,082,585.13.

OPERATIONS.—The production of coal from the company's lands, including that used by the company in its mining operations, was 1,112,127 tons, as compared with 1,905,495 tons in 1901, a decrease of 793,368 tons. The total shipments and local sales amounted to 972,712 tons, the balance having been consumed by the company in its mining operations. This use required 139,415 tons, mostly of the smaller sizes, or 12.54 p. c. of its production, as against 8.6 p. c. in 1901, this increase in percentage being caused by the consumption of coal in keeping the mines free from water during the strike, when no coal was being produced. The production per day was 7,581 tons, against 7,923 tons in 1901. The average time worked at each of the collieries was 127 days, a loss of 84 days per colliery as compared with the previous year. The cost of coal was $1.854 per ton, an increase of 30.1 cents per ton.

The 4½ p. c. bonds of 1914 are secured on the canal, 6,030 acres of coal lands, and 76 m. of Lehigh and Susquehanna RR.

Gold Bonds of June 15, 1914: The Central RR. Co. of N. J. assumed in purchase of equipment $2,310,000 of these bonds, and $500,000 were assumed by the Lehigh and Wilkesbarre Coal Co. They are secured by 1st mtge. on Nanticoke RR. (26 m.), and 2d mtge. on Canal Coal and RR. Of the $4,652,500 bonds issued, $2,810,000 were paid at maturity on Dec. 15, 1897, and $1,842,500 were extended for a term of seventeen years from June 15, 1897, at the rate of 4 p. c., interest semi-annually. Trustee: Fidelity Co., Philadelphia, Pa.

Railroad Bonds of April 1, 1914: Secured by 1st mtge. on company's railroad from southern boundary of Mauch Chunk to Delaware River at Easton, including bridge over river. These bonds were extended on Feb. 1, 1897, date of maturity, to April 1, 1914, in gold at 4 p. c. interest. Trustee of extended bonds: Fidelity Co., Philadelphia, Pa. Interest was paid at the rate of 6 p. c. up to Feb. 1, 1897, when the reduction to 4 p. c. took effect.

Gen. Mtge. Bonds of 1924: Authorized issue, $15,000,000, of which a sufficient amount is reserved to retire prior liens. Secured by mortgage, subject to prior bonds, on 7,460 acres of coal land, 48 m. of canal and 161 m. of railroad.

The Collateral Trust Gold Bonds were authorized to the amount of $1,500,000 on June 3, 1895, to fund the company's floating debt and provide means for necessary improvements. They are secured by the deposit of the following securities with the Fidelity Co., trustee: 9,950 shares of stock of the Wilkesbarre and Scranton Ry. Co.; 4,450 shares of stock of the Allentown Terminal RR. Co.; $280,000 5 p. c. gen. mtge. bonds of the Lehigh and Hudson River Ry. Co.; $644,000 1st mtge. bonds of the Alliance Coal Mining Co., and 82,889 shares of stock of the Alliance Coal Mining Co. There were $1,000,000 of these bonds sold in July and Aug., 1895, and $500,000 during 1896.

The Funding and Improvement Mtge. Bonds are authorized to the amount of $7,500,000. The mortgage was created partly for the purpose of providing funds for the purchase of $480,000 1st mtge. bonds of the Delaware Division Canal Co., for taking up a mortgage of $230,000 on a portion of the company's coal lands lying west of the Little Schuylkill River, for the payment to the Central RR. Co. of New Jersey of $289,515 due on construction loan account and $312,571 due for advances on construction account of the Wilkesbarre and Scranton Ry., and for taking up $425,000 of temporary loans made to provide funds to develop the property of subsidiary companies. The property pledged under the mortgage consists of a 1st mortgage on 1,348 acres of coal lands, $800,000 bonds of the Delaware Division Canal Co., 30,000 shares of the capital stock of the Delaware Division Canal Co., and 2,500 shares of the capital stock of the Tresckow RR. Co., together valued at over $2,500,000; a second lien on the bonds and shares of stock now held by the Fidelity Co., trustee, under the collateral trust mortgage of June 1, 1895 (with the exception of $280,000 general mtge. 5 p. c. bonds of the Lehigh and Hudson River Ry. Co.), and, in addition, a lien on all the company's canals, railroads, and coal lands. In making this mortgage, which was dated June 25, 1898, it was thought advisable to anticipate other obligations falling due during the next two years, and to provide funds for future extensions and improvements as the necessity for the same should arise.

Under the provisions of the mortgage, bonds to the amount of $2,085,000 were certified by the trustee and delivered to the company as of July 1, 1898. During 1901, $65,000 additional of these bonds were issued. During the past year, there were issued $200,000 additional, being at the rate of 75 p. c. of the amount paid by this company for expenses in improving its railroad property, making a total of $506,000 now in the company's treasury. The amount of outstanding bonds under this loan has been reduced $8,000 by the operation of the sinking fund under the terms of the mortgage. A sum amounting to $8,709.40, 5 cents per ton on the coal mined on Co.'s lands west of the Little Schuylkill River, was paid to the trustees, making a balance in the sinking fund of $8,889.73. After advertising, bonds to the amount of $8,000, Nos. 501 to 505, and 1036 to 1038, both inclusive, were purchased on account of the sinking fund. These bonds were cancelled by the trustee and delivered to this company Feb. 11, 1902. On Sept. 1, 1904, bonds can be issued to the amount of $1,415,000, the proceeds of which are to be used in purchasing the outstanding capital stock of the Nesquehoning Valley RR. Co. at par to an equal amount, on which this company is now guaranteeing dividends at the rate of 5 p. c., the stock so purchased to be transferred to the trustee as additional security. On Sept. 1, 1905, bonds to the amount of $1,500,000 are to be issued to retire the 4½ p. c. bonds issued under the collateral trust mtge. maturing at that time, amounting to $1,500,000. The balance of the bonds, amounting to $2,500,000, can be issued from time to time during the life of the mortgage, at a rate not to exceed $125,000 per annum, and not to exceed 75 p. c. of the property purchased or improvements to the railroads.

Under the lease by which this company came into possession of the property of the Delaware Division Canal Co., it was provided that the Lehigh Coal and Navigation Co. should, by purchase or otherwise, make provision for the bonds of the Delaware Division Canal Co. at or before their maturity. The amount of the bonds outstanding is $800,000. The bonds matured July 1, 1898, and were extended to July 1, 1948, with interest reduced to 4 p. c. per annum. Previous to their maturity this company had acquired $320,000 of the bonds by operation of the sinking fund, and purchased the remaining $480,000 on July 1, 1898.

Stock owned sixty days entitles holder to vote at annual meeting. Interest on the several issues of bonds payable at the company's office, Philadelphia, Pa. Trustee of funding and improvement mortgage bonds, The Provident Life and Trust Co., Philadelphia, Pa.; of all other bonds, Fidelity Co., Philadelphia, Pa.

Preferred stock has priority over common stock for cumulative dividends at the rate of 4 p. c. per annum out of net profits and for its full par value in case of the dissolution or winding up of the trust. Both classes of stock are free from taxation in Massachusetts.

No new consolidations have been effected during the past year, nor any new properties acquired, but a large amount of new construction has been done by the companies, shares of which were acquired last year. Thus the Middleton and Danvers has been extended to Lawrence, and the Haverhill and Andover has built from Haverhill to a junction with the former company, furnishing a new and direct line from both these cities to Salem and Beverly. The Reading, Wakefield and Lynnfield has built several lines, with the purpose of connecting an extension built by the Boston and Northern through Tewkesbury and Wilmington, with the existing lines of the latter company, and so providing new and direct lines from Lowell, Lawrence, and Haverhill to Boston. All this work is now finished and the lines are nearly ready for operation. By this new construction the mileage of the companies has been increased by 41, and now amounts to 860 in 22 cities and 66 towns. In addition, 25 miles of track have been reconstructed with heavy girder or tee rail, and 55 miles of new feed wire strung.

Its hydraulic works include 7,400 feet of tunnel extending from its power houses to the level of the river below the Falls, and having a capacity of more than 105,000 horse-power. The tunnel was opened Jan. 1, 1894. Wheelpit No. 1 contains ten 5,000 horse-power turbines connected with ten 5,000 horse-power dynamos in a stone power house 457 feet long. In Wheelpit and Power House No. 2, which have a capacity of eleven 5,000 horse-power turbines, connected with eleven 5,000 horse-power dynamos, there are already installed and in operation six 5,000 horse-power turbines and dynamos, and a second installation of five 5,000 horse-power turbines and dynamos has been contracted for to be completed by Sept. 1, 1903. The completion of this second installation in Power House No. 2 will give the company a capacity of 105,000 electrical horse-power and 8,000 hydraulic horse-power on the American side of the Niagara River.

The company owns 1,071 acres of land in the city of Niagara Falls, N. Y., devoted to sites for manufacturers using its power. Hydraulic and electrical horse-power is supplied to tenants of the company on its land in the city of Niagara Falls and to customers in the cities of Niagara Falls, Buffalo, the Tonawandas and Lockport. The entire output of fifteen generators of 5,000 horse-power each has been sold and is being delivered.

A plant on the Canadian side of the river in the Queen Victoria Niagara Falls Park, with a capacity of 100,000 horse-power, is now in course of construction by the Canadian Niagara Power Co. and the first installation of 30,000 horse-power is to be completed in 1903. The first installation in this plant will be three 10,000 horse-power turbines and dynamos. Contracts were let in April, 1903, for a further installation of two 10,000 horse-power turbines and dynamos. Substantially all of the stock of the Canadian Niagara Power Co. is owned by The Niagara Falls Power Co.

NORTH AMERICAN CO. (THE).—Incorp. June 14, 1890, under laws of New Jersey, to acquire the assets and property of the Oregon and Transcontinental Co., and also to engage in railroad and general financiering and promote street railway and electric light and power enterprises. (See MANUAL for 1893, page 1160.) The stock was issued in exchange, share for share, for the stock of the O. & T. Co., and on Aug. 20, 1890, the company assumed control of the Oregon and Transcontinental property. In Feb., 1897, the purchase of the Pabst light, heat, and power plant and of the property of the Milwaukee and Wauwatosa Electric Ry. Co. was consummated through the medium of the Milwaukee Light, Heat and Traction Co., organized for the purpose. The entire capital stock of this company was acquired by the Milwaukee Electric Ry. and Light Co., which now owns all the electric street railways in Milwaukee and its suburbs.

On Feb. 1, 1901, this company's holdings of the preferred stock of The Milwaukee Electric Ry. and Light Co. were sold, with the exception of a small balance of 52 shares, accumulated in the concentration of fractional shares, outstanding since the date of reorganization of the Milwaukee Co. This company has added to its ownership of the common capital stock of The Milwaukee Electric Ry. and Light Co., and now owns, with a trifling exception, the entire issue of that stock.

On page 1137 of the MANUAL for 1901, reference was made to the purchase of the gas, electric and water companies in the cities and towns of Covington, Newport, Dayton, Ludlow, and Bellevue in Kentucky (lying opposite Cincinnati, O.), and their consolidation into the Union Light, Heat and Power Co., in which the North American Co. held a controlling interest. During the fiscal year 1900-1901 the Cincinnati, Newport and Covington Light and Traction Co. was formed to consolidate the interests of the Cincinnati, Newport and Covington Ry. Co., and the Union Light, Heat and Power Co., and acquired all the stock of the Union Light, Heat and Power Co., and substantially all of the stock of the Cincinnati, Newport and Covington Ry. Co., issuing in payment therefor its preferred and common stock. The North American Co. received preferred and common shares of the Cincinnati, Newport and Covington Light and Traction Co. in exchange for the shares of the Union Heat, Light and Power Co. The old electric plants of the Union Light, Heat and Power Co. were dismantled, and a new generating plant constructed in an extension of the power house of the railway company, so that current for all purposes is produced in a single plant.

In the summer of 1901, this company purchased the entire capital stock ($1,500,000 par value) of the Imperial Electric Light, Heat and Power Co. of St. Louis, Mo.; the Citizens' Electric Lighting and Power Co. was consolidated with it under the laws of Missouri on May 20, 1902, under the corporate name of the Union Electric Light and Power Co. All the stock of the Imperial and Citizens' companies was exchanged for preferred and common shares of the Union Co. The consolidated company was awarded by the Louisiana Purchase Exposition a contract for about one-half of the electric current, which will be required by the World's Fair to be held in 1904, and a contract has been made with the St. Louis Transit Co. to furnish it with 12,000 horse-power during eighteen hours of each day for a term of 10 years from May 1, 1904. A syndicate was formed, of which the Mississippi Valley Trust Co., of St. Louis, and the North American Co. are managers, to provide all the capital that will be needed by the consolidated company, the Union Electric Light and Power Co.

On March 16, 1903, the company concluded the purchase of a large controlling interest in the stock of the Laclede Gas Light Co. of St. Louis, and on April 16, 1903, the management of that company was taken over (see MANUAL for 1902, page 1140). On April 8, 1903, it also purchased a large majority of both the preferred and common stocks of the Missouri Edison Co., and its management was transferred to the nominees of the purchasers. The initial steps have been taken under the statutes of Missouri to consolidate this company with the Union Electric Light and Power Co. In Oct., 1902, The North American Co., on behalf of a syndicate, of which it is the manager and in which it holds the largest interest, concluded the purchase of the entire capital stocks of the Edison Illuminating Co. and of the Peninsular Electric Light Co. of Detroit, Mich. (neither company having any bonded indebtedness), and thereafter united the ownership of these properties in The Detroit Edison Co., a corporation, which it caused to be formed for the purpose in Jan., 1903, under the laws of the State of New York. During the past year, the Milwaukee Light, Heat and Traction Co. purchased the property of the Racine Gas Light Co.

Subsequently the $63,300 of stock was issued, making the total amount of stock outstanding on May 31, 1902, $12,000,000. On March 23, 1903, the authorized capital stock was increased from $12,000,000 to $17,000,000 at a special meeting of the stockholders. The entire amount of such increased capital stock, viz., $5,000,000, is to be issued at once, and the proceeds thereof used to pay for the stock of The Laclede Gas Light Co. of St. Louis, which The North American Co. purchased, and to enable the company to extend and increase its investment and interest in the gas and electric lighting business in St. Louis and elsewhere. Of such increased capital stock, it was arranged, by authority of the Board of Directors, to dispose of $200,000 at private sale, for cash, at par. The balance of such increase, viz., $4,800,000, was sold to the stockholders of the company, at par.

Exclusive licenses and patent privileges were acquired from the Edison companies for the operation of electric railways and the supplying of electric light and power for Milwaukee and the adjacent districts and also city ordinances granting franchises covering all the important streets and points in the city. The work of substituting electric power for animal traction on the railways was completed in May, 1893. Receivers were appointed for the Milwaukee Street Ry. Co. on May 21, 1895, and on Jan. 26, 1896, the property was sold under foreclosure and purchased by the Reorganization Committee, who organized the existing company. See page 1127 for complete statement of this company.

NORTHERN SECURITIES CO.—Incorp. Nov. 13, 1901, under the laws of the State of New Jersey, with an authorized capital stock of $400,000,000, with power to invest in and hold the securities of other companies. The company holds large interests in the stocks of the Great Northern Ry. and the Northern Pacific Ry. Cos. (see General Index for statements of the Great Northern and the Northern Pacific Ry. Cos.) The trial of the suit brought by the Attorney General against the company in the Circuit Court of the United States, in March, 1902, resulted in a decree restraining the two railway companies from permitting this company to vote upon their shares, and from paying to it dividends thereon. This appeal has been taken by the company and will be argued as promptly as possible. The suit brought against the company by the State of Minnesota has been tried, but not that brought by the State of Washington. In a circular to the stockholders under date of May 4, 1903, the president of the company states: "The earnings of your properties have, since their purchase, largely increased, and their actual value has been materially enhanced and cannot be impaired even though the decisions in any of these suits should be adverse to your company."

PHILADELPHIA COMPANY.—Incorporated by special act of the Pennsylvania Legislature, March 22, 1871, as the Empire Contract Company. The name was changed to Mexican National Ry. Co. on June 17, 1873; to Commonwealth Contract Co., on Nov. 5, 1875, and to Rio Grande Extension Co. on Oct. 31, 1879. Organized under the present title on June 11, 1884. For years the company has been supplying the cities of Pittsburgh and Allegheny, and the towns adjacent thereto, with natural (fuel) gas. For a statement in outline of the development of the company's business and of the increase of its capital stock, see MANUAL for 1896, page 1295; MANUAL for 1898, page 1167, and MANUAL for 1901, page 1145.

From an organization supplying fuel gas alone, the company has grown into one which supplies the inhabitants of Pittsburgh, Allegheny, and the many important manufacturing towns along the banks of the Allegheny, Monongahela, and Ohio Rivers, numbering about 600,000, almost exclusively, with fuel gas, illuminating gas, and electric light, as well as serving the same territory with electric surface transportation. Its business may, therefore, be subdivided into (a) street railways, (b) electric lighting and illuminating gas, and (c) fuel gas.

Street Railways.—The Philadelphia Co. owns the entire capital stock of the Pittsburgh Rys. Co. The Pittsburgh Rys. Co. controls by ownership of stock, or by lease, the following traction and street railway companies, to wit:—Consolidated Traction Co., United Traction Co. of Pittsburgh, Pittsburgh and Birmingham Traction Co., West End Traction Co., Monongahela Street Ry. Co., Pittsburgh and Charleroi Street Ry. Co. and Suburban Rapid Transit Street Ry. Co. All of the corporations previous to Jan. 1, 1902, have been operated under separate managements. The Ry. Co. took possession of the property and organized a system of departments covering the entire territory and operated all of these departments from one headquarters—the total of tracks operated by the company is about 411 miles.

Electric Lighting and Illuminating Gas.—The Philadelphia Co. also owns or controls by lease the following companies, which form the lighting department of its business: Allegheny County Light Co., Monongahela Light and Power Co., Southern Heat, Light and Power Co., Consolidated Gas Co., South Side Gas Co., and Allegheny Illuminating Co. The first three named companies are the only public organizations furnishing electric current for heat, light, and power to the cities of Pittsburgh and Allegheny, and the territory immediately surrounding the same. The Consolidated Gas Co. operates under a perpetual charter and with the Allegheny Illuminating Co. and the South Side Gas Co. constitutes the only gas manufacturing companies in the cities of Pittsburgh and Allegheny, and the exclusive right to manufacture illuminating gas in said cities is vested in them.

Fuel Gas.—The Philadelphia Co., through its own lines and those of a number of companies controlled by it, supplies nearly all the fuel gas consumed in the cities of Pittsburgh and Allegheny, and the large number of manufacturing towns lying along the Monongahela and Allegheny rivers. This territory is well covered with distributing mains and is connected by larger mains of ample capacity with the sources of supply in the West Virginia fields and elsewhere. (See following paragraph.)

Property changes during the year ending March **31, 1903**.—During the year 12 wells were purchased, and 85 wells were drilled, of which 67 were productive of gas, 8 of oil and 10 unproductive; 20 wells were sold and 54 abandoned, having ceased to be productive; making the total number of wells owned or controlled through stock ownership, and in use by the company at this date, 516. During the year 82.58 miles of pipe were reclaimed and 160.72 miles were laid. The total amount of pipe lines operated by the company either through ownership or stock ownership in other corporations is now 1,334.88 miles. This does not include the 134.31 miles of mains of the Allegheny Heating Co., nor the 335.42 miles of mains of the several artificial gas companies. The company now holds under lease 289,500 39-40 acres of gas and oil territory situate in Western Pennsylvania and West Virginia. It controls through its ownership of the Union Gas Co. of McKeesport 398½ acres and through its majority ownership of the Equitable Gas Co. 1,140 acres of leaseholds. The company has acquired during the past year 105,725 17-20 acres of productive gas territory. By surrenders of unproductive and exhausted leases, it has reduced its previous holdings so that the total increase in acreage during the year is 87,968 7-20 acres. The company sold during the year 28,285,102,350 cubic feet of gas, being an increase of 4,400,160,350 cubic feet, with additional receipts from that source of $581,041.66. There has been an increase during the past year of 6,855 domestic consumers of the natural gas supplied by the company and the companies it operates. The Philadelphia Co. and the companies it operates supply 41,890 natural gas consumers, and the Allegheny Heating Co. supplies 12,851 consumers.

PRESSED STEEL CAR CO.—Incorp. under the laws of New Jersey, Jan. 12, 1899, and authorized (among other things) to engage in "the manufacture of railway cars, passenger, freight, and street cars; the manufacture of pressed steel trucks and other trucks; the manufacture of bolsters, truck frames, centre plates, stake pockets, corner bands, steel equipments, and appliances and specialties for railway cars, and all the products of steel, iron steel, or other metals and wood; to manufacture, purchase, or otherwise acquire, to hold, mortgage, pledge, sell, assign, and transfer or otherwise dispose of, to invest, trade, deal in and deal with the products, materials, goods, wares, and merchandise and property of every class and description." This company was formed for the purpose of combining in one company the interests of the Schoen Pressed Steel Co. and the Fox Pressed Steel Equipment Co., controlling practically all the pressed steel car business in the country. The Fox Pressed Steel Equipment Co. was a company created by the merger of the Fox Solid Pressed Steel Co. and the Fox Pressed Steel Co. The Fox Solid Pressed Steel Co. began operations on Oct. 17, 1888, and continued in active business until April 17, 1897, when it consolidated with the Fox Pressed Steel Co. The Fox Pressed Steel Co. was organized Feb. 8, 1896, and, with the Fox Solid Pressed Steel Co., merged itself into the Fox Pressed Steel Equipment Co. The Schoen Pressed Steel Co. was incorporated Nov. 25, 1895, and was in active operation until the formation of the Pressed Steel Car Co.

Description of Property: There are three plants, all of which, except that at Joliet, are now in active operation, viz.: (1) McKees Rocks plant, at McKees Rocks, Pa., completed in July, 1899, at a cost of over $1,800,000. This plant doubled the company's capacity. The plant consists of 96 acres, of which 25 acres are covered with new steel buildings of the most improved and modern design. The plant is filled throughout with the latest type of machinery, especially designed, most of which is covered by basic patents. In 1900, a plant for the manufacture of wooden cars with steel underframing was added to these works. The capacity of the plant is 70 cars per day. In 1902 this company sold the land occupied by its Pittsburgh plant, and removed the machinery and appliances thereon to its McKees Rocks plant, at which new buildings had been constructed to accommodate it, and such other new and more modern machinery and appliances as were necessary to make this a complete up-to-date plant for the manufacture of miscellaneous products, such as Repair Parts for Cars, Fox Trucks, Underframes, etc., at a minimized expense. (2) Allegheny plant, at Allegheny, Pa., consisting of 35 acres, of which 15 acres are covered with steel and brick buildings of improved type, and with machinery and equipment especially designed, most of which is covered by basic patents; capacity, 60 cars per day. During the six months ending June 30, 1903, a complete Forging Plant was added to this works. (3) Joliet plant, at Joliet, Ill.; it has 19½ acres of ground, of which two and one-half acres are covered with improved well-constructed buildings of stone and steel. The plant is completely equipped with machinery, largely covered by patents which are believed to be fundamental. In 1899 a contract was made with the Carnegie Steel Co. by which the latter is to deliver to the Pressed Steel Car Co. 30,000 tons of steel plate per month for 10 years.

Co. The issue of said bonds is limited to $10,000,000, and the $2,000,000 of additional bonds can be issued only against the deposit and pledge with said trustee under said deed of trust of the same amount in par value of additional stock of the Illinois Central RR. Interest at a 4 p. c. cumulative rate is payable if received from dividends on the shares pledged, the stock itself being deliverable to the holders of the certificates at maturity, unless the option to call at 105 is exercised in the meantime. The certificate may be redeemed on any interest date upon three months' previous notice, by the payment to the United States Trust Co. of New York, for the account of the holder, of $1,050 for each certificate and the accrued dividend installments. In case of the redemption of only part of the issue, the certificates to be redeemed must be chosen by lot by the trustee. The Securities Co. may withdraw Illinois Central stock, deposited under said agreement, by depositing with the trustee, $1,050 for every ten shares so withdrawn, and, subject to the provisions of the agreement, any cash so deposited may in turn be withdrawn upon the redeposit of the Illinois Central stock previously withdrawn, or an equivalent amount thereof.

FIXED CHARGES.—The total fixed charges for the year 1903 will be (7 p. c. on $27,000, $1,890; 6 p. c. on $10,363,500, $621,810; 5 p. c. on $3,000,000, $150,000), $773,700; add dividends guaranteed on preferred stock of Alabama Steel and Ship Building Co. Deduct interest received on bonds alive in sinking fund (6 p. c. on $348,000), $20,880; on securities in treasury (6 p. c. on $615,000), $36,900—total, $57,780. Net annual charge to profit and loss, $742,320.

From the amount of bonds outstanding, $13,390,500, deduct the actual amount of sinking fund, $478,883.77; to find the net remaining liability as per general balance sheet, $11,811,616.23. Interest on bonds is payable at the Hanover National Bank, New York.

The Birmingham Div. bonds are secured on all the property of the Birmingham (Ala.) Division (formerly the Pratt Coal and Iron Co.), and are also secured on the property of the company in the State of Tennessee, but subordinate to the Tennessee Div. mtge. bonds dated Jan. 1, 1887. The Tennessee Div. bonds are similarly secured by a 2d mortgage on the Alabama property. A sinking fund of 1 p. c. has been provided on the Birmingham Div. and 1½ p. c. on Tennessee Div. Bonds. The authorized amount of De Bardeleben bonds assumed by the T. C., I. & RR. Co., under the terms of purchase, is $3,000,000, of which $400,000 were held in trust for the Eureka Co. bonds. These $400,000 bonds were issued during 1901 and the Eureka bonds retired. By the payment of the Eureka Co.'s bonds the De Bardeleben issue has become a 1st mortgage upon the Oxmoor furnaces and Ishkooda ore mines. Sinking fund retires $30,000 of the De Bardeleben bonds annually.

The authorized amount of general mtge. bonds is $15,000,000. They are secured by mtge. to the Union Trust Co., New York, N. Y., as trustee, of the entire property of the company. The bonds are for $1,000 each, in coupon form, with privilege of registration as to principal alone or of conversion into fully registered bonds. Principal and interest are payable in gold, free of all taxes. There is a sinking fund under which the surplus earnings of the company up to 1 p. c. of the amount of the bonds issued shall be applied to the retirement of bonds whenever they can be purchased at not exceeding 105 p. c. and accrued interest, the fund to be invested if bonds are not offered at that figure. Of these bonds $10,653,500 were to be used for retiring bonds then outstanding as they fell due, $3,000,000 were to be sold and the floating liabilities reduced, and $1,346,500 are to be sold and the proceeds expended for additions and betterments. Up to Dec. 31, 1902, it had been necessary to sell only $3,000,000 of these bonds, the money received for them reducing floating obligations, the balance required (except $100,000 still due) having been taken from earnings. As additional security under the mortgage the trustee holds $120,000 capital stock of the Bessemer Rolling Mill Co. and $560,000 common stock of the Alabama Steel and Ship Building Co.

Funded debt outstanding consists of 1st mtge. 6 p. c. 30-yr. $1,000 gold coupon sinking fund bonds, due July 1, 1931, interest Jan. and July; trustee, Continental Trust Co., New York, N. Y. These bonds are a first lien upon the plants formerly owned by the Standard Milling and Smelting Co., the Colorado Philadelphia Reduction Co., the Union Gold Extraction Co., the Metallic Extraction Co., the National Gold Extraction Co., and the Ore Sampling Plant of the National Gold Extraction Co. The real estate upon which these plants are located consists of 261.48 acres in the aggregate, owned in fee simple by the company, together with necessary railway tracks and facilities, water rights, rights of way, and all other easements of every kind and nature whatsoever appurtenant to said plants; also all patents, rights, contracts and franchises owned by the company. The provisions of the mortgage are such that it is a first lien upon all of the property of every kind and nature whatsoever of the company, now owned or hereafter at any time to be acquired by it, whether specifically enumerated in the mortgage or not.

The mortgage securing these bonds provides for a sinking fund of $50,000 per annum, to be paid to the trustee in two semi-annual installments of $25,000 each, beginning March 1, 1902. With these funds the trustee is to purchase the bonds of the company at not to exceed 110, and has the power in case it cannot purchase the bonds at 110 or less, to draw and call the same for the purposes of the sinking fund. The sinking fund is cumulative, and when bonds are purchased under its provisions they are not cancelled, but marked by the trustee "Purchased for the Sinking Fund and not transferable," and the company continues to pay to the trustee the interest on such bonds so acquired by the sinking fund, for further purchase of bonds. The company has reserved to itself the right to redeem and pay off any or all of the bonds on any interest date, after July 1, 1902, at 110 p. c. of their face value. This provision for redemption is in addition to and irrespective of the sinking fund provisions.

It is entitled to a preferential dividend of 8 p. c. per annum, declared out of net earnings of each year. Extract from the company's report for 1902-03:

"As was stated last year, the entire indebtedness of the United States Rubber Co. and its subsidiary companies, other than the debentures of the Boston Rubber Shoe Co., was funded into $12,000,000 5 p. c. funding notes. By the terms of the debentures of the Boston Rubber Shoe Co. there must at all times be in the treasury of that company *net* quick assets equal to the full amount of the debentures outstanding, which amount now is $4,800,000. There is no mortgage debt of the United States Rubber Co. or of any of its subsidiary companies, and no outstanding notes or debentures of any of said companies other than the funding notes and debentures above mentioned. The cash on hand March 31, 1903, was $4,823,830.91. From the earnings of the past year $1,000,000 of the funding notes have been purchased by the company and delivered to the Morton Trust Co., trustee, and cancelled."

UNITED STATES STEEL CORPORATION.—The United States Steel Corporation was incorporated under the laws of the State of New Jersey, the original certificate of incorporation having been filed at Trenton Feb. 5, 1901, and the amended certificate, April 1, 1901. By the amended certificate, the authorized capital stock of the corporation was fixed at 11,000,000 shares of the par value of $100 each, equally divided into 5,500,000 shares of 7 p. c. cumulative preferred stock (preferred as to both dividends and capital), and 5,500,000 shares of common stock.

It is provided by the certificate of incorporation as follows:

Article III.—The objects for which the corporation is formed are:

To manufacture iron, steel, manganese, coke, copper, lumber, and other materials, and all or any articles consisting, or partly consisting, of iron, steel, copper, wood, or other materials, and all or any products thereof.

To acquire, own, lease, occupy, use, or develop any lands containing coal or iron, manganese, stone, or other ores, or oil, and any wood lands or other lands for any purpose of the company.

To mine, or otherwise to extract or remove coal, ores, stone, and other minerals and timber from any lands owned, acquired, leased, or occupied by the company, or from any other lands.

To buy and sell, or otherwise to deal or to traffic in, iron, steel, manganese, copper, stone, ores, coal, coke, wood, lumber, and other materials, and any of the products thereof, and any articles consisting, or partly consisting, thereof.

To construct bridges, buildings, machinery, ships, boats, engines, cars, and other equipment, railroads, docks, slips, elevators, water works, gas works, and electric works, viaducts, aqueducts, canals, and other waterways, and any other means of transportation, and to sell the same, or otherwise to dispose thereof, or to maintain and operate the same, except that the company shall not maintain or operate any railroad or canal in the State of New Jersey.

To apply for, obtain, register, purchase, lease, or otherwise to acquire, and to hold, use, own operate, and introduce, and to sell, assign, or otherwise to dispose of, any trade marks, trade names, patents, inventions, improvements, and processes used in connection with, or secured under letters patent of the United States, or elsewhere, or otherwise; and to use, exercise, develop, grant licenses in respect of, or otherwise to turn to account any such trade-marks, patents, licenses, processes, and the like, or any such property or rights.

To engage in any other manufacturing, mining, construction, or transportation business of any kind or character whatsoever, and to that end to acquire, hold, own, and dispose of any and all property, assets, stocks, bonds, and rights of any and every kind; but not to engage in any business hereunder which shall require the exercise of the right of eminent domain within the State of New Jersey.

To acquire by purchase, subscription, or otherwise, and to hold or to dispose of, stocks, bonds, or any other obligations of any corporation formed for or then or theretofore engaged in or pursuing, any one or more of the kinds of business, purposes, objects, or operations above indicated, or owning or holding any property of any kind herein mentioned; or of any corporation owning or holding the stocks or the obligations of any such corporation.

To hold for investment, or otherwise to use, sell, or dispose of, any stock, bonds, or other obligations of any such other corporation; to aid in any manner any corporation whose stock, bonds, or other obligations are held or are in any manner guaranteed by the company, and to do any other acts or things for the preservation, protection, improvement, or enhancement of the value of any such stock, bonds, or other obligations, or to do any acts or things designed for any such purpose; and, while owner of any such stock, bonds, or other obligations, to exercise all the rights, powers, and privileges of ownership thereof, and to exercise any and all voting power thereon.

Article IV.—The total authorized capital stock of the corporation is eleven hundred million dollars ($1,100,000,000), divided into eleven million shares of the par value of one hundred dollars each. Of such total authorized capital stock, five million five hundred thousand shares, amounting to five hundred and fifty million dollars, shall be preferred stock, and five million five hundred thousand shares, amounting to five hundred and fifty million dollars, shall be common stock.

From time to time, the preferred stock and the common stock may be increased according to law, and may be issued in such amounts and proportions as shall be determined by the board of directors, and as may be permitted by law.

The holders of the preferred stock shall be entitled to receive when and as declared, from the surplus or net profits of the corporation, yearly dividends at the rate of seven per centum per annum, and no more, payable quarterly on dates to be fixed by the by-laws. The dividends on the preferred stock shall be cumulative, and shall be payable before any dividend on the common stock shall be paid or set apart; so that if any year dividends amounting to seven per cent. shall not have been paid thereon, the deficiency shall be payable before any dividends shall be paid upon or set apart for the common stock.

Whenever all cumulative dividends on the preferred stock for all previous years shall have been declared and shall have become payable, and the accrued quarterly installments for the current year shall have been declared, and the company shall have paid such cumulative dividends for previous years and such accrued quarterly installments, or shall have set aside from its surplus or net profits a sum sufficient for the payment thereof, the Board of Directors may declare dividends on the common stock, payable then or thereafter, out of any remaining surplus or net profits.

In the event of any liquidation or dissolution or winding up (whether voluntary or involuntary) of the corporation, the holders of the preferred stock shall be entitled to be paid in full both the par amount of their shares and the unpaid dividends accrued thereon, before any amount shall be paid to the holders of the common stock; and after the payment to the holders of the preferred stock of its par value, and the unpaid accrued dividends thereon, the remaining assets and funds shall be divided and paid to the holders of the common stock according to their respective shares.

Pursuant to the powers conferred by its charter, the corporation acquired practically all of the issues of capital stock of the companies named in the following table, the old holders of such stocks receiving in exchange for each $100 par value thereof, the amount set opposite thereto in preferred or common stock of the United States Steel Corporation at par. The corporation also acquired up to July 1, 1902, $159,757,000 of The Carnegie Company Collateral Trust Bonds, for which an equal amount of U. S. Steel Collateral Bonds was issued:

Extract from the report submitted to the stockholders at their first annual meeting, held Feb. 17, 1903:

"Of the total authorized capital stock, there have been issued, and at this date (December 31, 1902) are outstanding 5,102,811 shares of preferred stock, and 5,083,025 shares of common stock. The corporation also has issued $303,757,000 of five per cent. bonds secured by a Trust Indenture, dated April 1, 1901, to the United States Trust Company of New York as trustee.

"Substantially all of these bonds and shares have been issued to acquire the bonds and stocks of the subsidiary companies which were held by the public, as well as considerable amounts thereof, which belonged to members of the Syndicate and to the Syndicate Managers, viz.: (1) the bonds and stock of the Carnegie Company and the capital stocks of the several other companies under the original agreement of March 1, 1901, with J. P. Morgan & Co., Managers of a Syndicate which includes among its members and participants, officers and directors of this Corporation; (2) the stocks of the American Bridge Company and the Lake Superior Consolidated Iron Mines under the agreement of April 1, 1901, with J. P. Morgan & Co.; (3) the stocks of the Oliver Iron Mining Company and of the Pittsburgh Steamship Company; and (4) the stocks of the Shelby Steel Tube Company, for which a contract was negotiated in June, 1901, with representatives of the stockholders of that company.

"DETAILS OF ISSUE OF STOCKS AND BONDS.

"(1) 4,248,084 shares of the common stock and 4,249,758 shares of the preferred stock and $303,757,000 face value of bonds of the corporation were issued in payment for the $25,000,000 in cash, paid to the Corporation by the Syndicate Managers, and for the stocks and bonds set forth in the following table, excepting 1,742 shares otherwise acquired, and directors' qualifying shares, viz:

"(2) 722,174 shares of common stock and 742,192 shares of preferred stock of the Corporation were issued for the acquisition of $29,424,309 par value of stock of the Lake Superior Consolidated Iron Mines and $30,950,800 of common stock and $31,373,800 of preferred stock, par values, of the American Bridge Company;

"(3) 92,500 shares each of common and preferred stock of the Corporation were issued for the acquisition of an outstanding one-sixth interest in the Oliver Iron Mining Company and in the Pittsburgh Steamship Company, thus securing the ownership of all of the stock of those two companies not owned by the Carnegie Company except directors' qualifying shares; and

"(4) 20,267 shares of common stock and 18,361 shares of preferred stock of the Corporation were issued for the acquisition of $8,047,600 of common stock and $4,955,500 shares of preferred stock, par values, of the Shelby Steel Tube Company under the contract above mentioned.

"The Aragon Iron Mines leasehold and the stock of the Bessemer Steamship Company have been purchased for cash paid and payable by this Corporation or by some of the subsidiary companies above mentioned.

"All of the bonds of the Carnegie Company and all of the stocks of the companies acquired as above mentioned by the United States Steel Corporation, have been lodged with the United States Trust Company, as Trustee, for the benefit of the Corporation and its stockholders, and to secure the payment of the $304,000,000 bonds of the Corporation authorized by the deed of trust of April 1, 1901. This deposit affords security to stockholders as well as bondholders against diversion or depletion of these important assets of the corporation.

"Circulars, dated March 2, and April 2, and 8, 1901, addressed to the holders of shares of the several companies therein specified, were issued and published by the Syndicate Managers. At the rates offered in the circular dated March 2, 1901, the Syndicate acquired the common stocks and preferred stocks of the seven companies (other than the Carnegie Company) as above mentioned (see p. 1240) and thereupon sold and transferred the same to this Corporation under the contract of March 1, 1901. The Syndicate delivered to the holders of such stocks of said seven companies in the aggregate 2,694,909 shares of common stock and 2,616,957 shares of preferred stock of this Corporation. The Syndicate acquired sixty per cent. ($96,000,000) of the stock of the Carnegie Company, and $159,450,000 face value of the five per cent. bonds of the Carnegie Company by delivering to the holders thereof said $303,450,000 of bonds of this Corporation and $1,200,000 in cash; and the Syndicate acquired the remaining forty per cent. ($64,000,000) of the stock of the Carnegie Company by delivering to the holders thereof 982,771 shares of preferred stock and 902,790 shares of the common stock of this Corporation.

"The residue of the common and preferred stock of this Corporation delivered to the Syndicate under the contract of March 1, 1901, and not used for the acquisition by it of the stocks of the specified companies, being the shares which, as stated in the Syndicate circular of March 2, 1901, were to be retained by and to belong to the Syndicate, amounted to 649,987 shares of preferred stock, and 649,988 shares of common stock. This residue of stock or the proceeds thereof, after reimbursing the Syndicate the $25,000,000 in cash which it paid to the Corporation, and approximately $3,000,000 for other syndicate obligations and expenses, constituted surplus or profit of the Syndicate.

"The transactions between this Corporation and the Syndicate having been concluded, an agreement of final settlement and mutual release, dated January 3, 1902, was executed between this Corporation and the Syndicate Managers.

"It will be noted that this Corporation has received and now owns in the aggregate more than ninety-nine and three-fourths per cent. of the shares of all the specified companies. The acquisition of so large a proportion of the shares has enabled the Corporation promptly to enter upon the accomplishment of the principal objects which induced its formation, and has facilitated the fulfillment of the original expectations of large reductions in expenditures for improvements, of increased earnings applicable to dividends, and of greater stability of investment, without increasing the prices of manufactured products.

"LEASE OF POCAHONTAS COAL LANDS.

"Subsidiary companies of the Corporation have secured a lease of fifty thousand acres of the best Pocahontas coking and fuel coal property, on a royalty basis, and on favorable terms for production and transportation. Plans for the prompt development of this property on a large scale are under consideration, and it is expected that in the near future there will be received from this field a large supply of coke and fuel coal. With this acquisition, it is estimated that there is now controlled by subsidiary companies a sufficient quantity of the best and cheapest coking coal to provide, on the basis of present consumption, for the necessities of all the furnaces of these companies during the next sixty years. The Corporation has guaranteed the performance of this lease on the part of the lessees."

The Trust Indenture provides that the company shall be entitled to vote upon the deposited stocks so long as it is not in default in payment of interest on the outstanding bonds, but it provides as follows:

"Nevertheless, such voting power shall not in any case or at any time be conferred or be used or exercised for the purpose of authorizing the creation of any lien, secured indebtedness, or charge upon the properties or franchises of any corporation or association, while a majority of the shares of the capital stock thereof shall be held by the Trustee hereunder, except in substitution and exchange for a like amount of secured indebtedness or charges of such corporation or association, or to secure advances or loans from the Steel Company to enable such corporation or association to make betterments, improvements, or extensions. Any such lien, secured indebtedness, or charge for advances or for loans from the Steel Company forthwith shall be transferred by the Steel Company to the Trustee hereunder, and the evidences thereof shall be delivered to the Trustee hereunder by it to be held in all respects as though the same had been transferred and delivered to the Trustee at the time of the execution of this indenture; but all sums which shall be paid in satisfaction or discharge of any such lien, secured indebtedness, charge or obligation shall belong to and be received by the Steel Company and shall not be held by the Trustee." . . .

"Whenever requested by resolution adopted by the affirmative vote of at least two-thirds of all the Directors of the Steel Company, the Trustee shall vote, or shall execute its proxy or power of attorney to vote, upon the shares of stock of other companies held by it under this Indenture, in favor of the increase from time to time of the Capital Stock of any of such companies. . . . In case of the increase of the Capital Stock of any such company, the Steel Company forthwith shall assign, transfer, and deliver to the Trustee, by it to be held upon the trusts of this Indenture, in the same manner as though assigned, transferred, and delivered to the Trustee at the date of the execution thereof, the additional Capital Stock of such Company or such part thereof as shall be proportionate to the part of the entire capital stock of such company previously held by the Trustee hereunder.". . . .

The Trust Indenture further provides that after the bonds are paid the deposited stocks shall still be held by the Trustee as follows:

. . . "But the Trustee in such case shall continue to hold as depositary for the Steel Company the certificates for all shares of stock, and all bonds or other securities (except stocks, bonds, and other securities held in the Sinking Fund) until the holders of two-thirds of the Preferred Stock and of two-thirds of the Common Stock of the Steel Company then outstanding, by their vote given at a meeting of the Stockholders of the Steel Company, shall have authorized some disposition thereof; whereupon the Trustee shall dispose of such shares of stock, bonds, or other securities, as authorized by such vote."

Steel ingot production (Bessemer ingots, 6,759,210 tons; open-hearth ingots, 2,984,708 tons), 9,743,918 tons. GENERAL PROFIT AND LOSS ACCOUNT, year ending Dec. 31, 1902.—Gross sales and earnings, $560,510,479. Manufacturing and producing cost and operating expenses, $411,408,818. Balance, $149,101,661; miscellaneous manufacturing and operating gains and losses (net), $2,654,189; rentals received, $474,781—total net manufacturing, producing and operating income, $152,230,632. Add other income: Proportion of net profits of properties owned but whose operations (gross revenue, cost of product, expenses, etc.) are not included in this statement, $1,972,316; interest and dividends on investments and on deposits, etc., $3,454,135—total income, $157,657,084. Net earnings for year, $133,308,764.

INCOME ACCOUNT, year ending Dec. 31, 1902.—The total net earnings of all properties after deducting expenditures for ordinary repairs and maintenance (approximately, $21,000,000—see note below), also interest on bonds and fixed charges of the subsidiary companies, amounted to $133,308,764. Deductions: Sinking funds on bonds of subsidiary companies, $624,064; depreciation and extinguishment funds (regular provisions for the year, $4,834,710; extraordinary replacement funds (regular provisions for the year), $9,315,615; special fund for depreciation and improvements, $10,000,000—total, $24,774,389. Net earnings, $108,534,374, from which were paid: Interest on U. S. Steel Corporation bonds for the year, $15,187,850; sinking fund on U. S. Steel Corporation bonds for the year, $3,040,000; dividends on U. S. Steel Corporation stocks (preferred, 7 p. c., $35,720,177; common, 4 p. c., $20,332,690), $56,052,867—total, $74,280,717. Undivided profits or surplus for the year, $34,253,657.

NOTE.—The actual expenditures for ordinary repairs and maintenance were $21,230,218. It cannot be stated, however, that this specific sum was taken out of the net earnings for the year, because in the manufacturing and producing properties the expenses for repairs and maintenance enter into and form a part of production cost. And as the net earnings of such properties are stated on the basis of gross receipts for product shipped, less the production cost thereof, the income for the year is charged with outlays for repairs and maintenance only to the extent that the production during such period was actually shipped. But as the shipments in 1902 equaled practically the year's production, approximately the entire amount of the expenditures in question has been deducted before stating the net earnings as above.

INVENTORIES.—The aggregate inventories of all properties on Dec. 31, 1902, equaled the total sum of $104,390,844. About one-third of this sum is represented by the value of iron ore on hand. It is necessary to accumulate large tonnages of ore during the summer and fall months for conversion during the period extending from Dec. 1 to April 15 when, owing to the close of navigation on the Great Lakes, the mining of ore is reduced and shipment from the mines entirely stopped. The quantities of partly finished materials (blooms, billets, bars, etc.), also of finished products, are somewhat above the normal average, owing largely to the railroad congestion at principal producing centers, which prevented prompt deliveries from the mills. Inventories are taken on basis of actual cost of the materials and products at the several departments of the companies holding the same.

The following is a general classification of the inventories on Dec. 31, 1902: Ores, $34,072,939; pig iron scrap, spiegel and ferro, $6,294,358; coal and coke, $858,820; pig tin, lead and spelter, $1,362,466; limestone, fluxes and refractories, $969,203; rolls and molds and stools, $2,359,505; manufacturing supplies, stores and miscellaneous items not otherwise classified, $10,299,689; ingots, blooms, billets, sheet and tin plate bars, skelp, rods, etc., $12,824,909; finished products, $18,968,396; mining supplies and stores, $1,866,125; railroad supplies and stores, $1,165,374; material, labor and expense locked up in bridge and structural contracts, including estimated profit thereon ($27,443,409, less bills rendered on account, $17,447,810), $9,995,599; material in transit and on consignment, $3,353,461—total, $104,390,844.

SINKING, DEPRECIATION AND EXTRAORDINARY REPLACEMENT FUNDS.—Provisional charges are made monthly to operations for bond sinking funds and to establish funds for depreciation, and for reserves for extraordinary replacements. The purposes for which these funds are particularly designed are as follows:

Bond Sinking Funds.—These are the funds required by the respective mortgages to be set aside annually for retirement of the bonds issued thereunder.

Depreciation and Extinguishment Funds.—The appropriations for these purposes have been made with the idea that thus aided the bond sinking funds will liquidate the capital investment in the properties at the expiration of their life. These moneys are used not for current operating expenses, but to offset consumption and depreciation by the provision of new property or of reserve funds.

Extraordinary Replacement Funds.—These are designed to be used to improve, modernize and strengthen the properties. They are not used for ordinary maintenance, repairs and renewals (such expenses are included in current operating costs), but for the substitution of improved and modern machinery, plants, facilities, equipment, etc.

During the year ended Dec. 31, 1902, the appropriations made for the foregoing funds, together with the payments therefrom, and the balances in the funds at the close of the year, were as follows:

The balances to the credit of the several funds on Dec. 31, 1902, as per the preceding table, are included in the current assets of the organization, viz.: In general cash, $1,773,333.33; current assets—cash, marketable securities, inventories, etc., $18,491,145.85—total, $20,264,479.18.

CAPITAL STOCK.—The outstanding capital stock of the United States Steel Corporation was increased during the year by the issue of the following amounts for the acquisition of additional shares of capital stock of the subsidiary companies surrendered for exchange, viz.: Common stock issued, $75,200; preferred stock issued, $75,500. The total capital stock of the United States Steel Corporation issued and outstanding on Dec. 31, 1902, was as follows: Common stock, $508,302,500; preferred, $510,281,100—total, $1,018,583,600.

BONDED, DEBENTURE AND MORTGAGE DEBT.—At the beginning of the year the bonded and mortgage debt of the United States Steel Corporation and subsidiary companies in the hands of the public was $366,097,698. Issues were made during the year by the several companies as follows: Bessemer and Lake Erie RR., Erie equipment trust bonds, $1,220,000; Pittsburgh, Bessemer and Lake Erie RR. Co. debenture gold bonds, total issue, $500,000 (Carnegie Co. proportion), $260,895; Elgin, Joliet and Eastern Ry. Deduct bonds, etc., retired or acquired during the year, $4,812,577. Bonded, debenture and mortgage debt in the hands of the public, Dec. 31, 1902, $363,655,459. Net decrease during the year, $2,442,239.

In addition to the foregoing transactions in bonds there were surrendered for exchange $207,000 of The Carnegie Co. collateral trust bonds, and in lieu of which an equal amount of United States Steel Corporation 5 p. c. 50-yr. gold bonds was issued.

The amount of bonds and mortgages retired, $4,812,577, was paid from sinking and depreciation fund provisions and surplus earnings. Since the organization of the United States Steel Corporation, April 1, 1901, to Jan. 1, 1903, the amount of bonds and mortgages paid and retired by all properties, including bonds purchased for sinking funds, was $6,384,759. The funds for the payment of the above liabilities were provided entirely from the surplus net earnings of the organization—no new capital or bonded or other liability has been created in lieu thereof, although practically all of such payments might properly be funded, as the liabilities were those of the subsidiary companies previous to or at the time of organization of U. S. Steel Corporation for the acquirement of additional property or for moneys borrowed, which were in turn used for purchase of property and construction expenditures.

As shown by the General Balance Sheet on page 1245 the amount of these liabilities outstanding on Dec. 31, 1902, was as follows: Purchase money obligations, $6,689,418.53; bills payable, $6,202,502.44; special deposits, $4,485,546.58—total, $17,377,467.55.

PROPERTY ACCOUNT.—The expenditures made during the year by all the properties and charged to property account equaled, less credits for property sold, the total sum of $16,586,532. These outlays were made for the completion of construction work at manufacturing properties under way when the U. S. Steel Corporation was organized, also for necessary additions and extensions authorized since its organization, for the acquirement of additional ore and coal property, the opening and development of new mines and plants, for additional equipment and facilities demanded by the growing requirements of the business of the transportation properties, to secure material reduction in cost of manufacture, transportation of raw and unfinished materials, and distribution of finished products, etc.

PROPERTY ACCOUNT EXPENDITURES SINCE ORGANIZATION, U. S. STEEL CORPORATION.—The total amount of expenditures for property account by all properties, from April 1, 1901, to Dec. 31, 1902: During nine months ending Dec 31, 1901, $16,956,869; during fiscal year ending Dec. 31, 1902, $16,586,532—total, $33,543,400. On account of expenditures as above, funds have been provided by issue of bonds and mortgages by the subsidiary companies (chiefly securities of railroads) to the amount of $3,456,660. Balance of outlays for property account from April 1, 1901, to Dec. 31, 1902, paid in cash from depreciation accounts and surplus earnings, $30,086,741.

SUMMARY OF CASH PAYMENTS FOR PROPERTY ACCOUNT AND REDUCTION OF PURCHASE MONEY OBLIGATIONS, BILLS PAYABLE, BONDS, MORTGAGES, ETC., SINCE ORGANIZATION OF THE UNITED STATES STEEL CORPORATION.—Amount paid in cash from depreciation account and surplus earnings, for property account from April 1, 1901, to Dec. 31, 1902, $30,086,741; paid from surplus during the above period to reduce Purchase Money obligations, Bills Payable and Special Deposits of subsidiary companies, $24,700,339; amount of bonds and mortgages discharged during the same period (exclusive of bonds redeemed with sinking fund moneys), and paid out of surplus earnings, $3,091,759—total, paid in cash, from April 1, 1901, to Dec. 31, 1902, from depreciation accounts and surplus, for property account and reduction of various liabilities outstanding at time corporation was organized, $57,878,838.

SUMMARY OF FINANCIAL OPERATIONS of all properties, year ending Dec. 31, 1902, showing the net resources for the year and disposition thereof: *Resources:* Profit and loss surplus for the year, as per income account preceding, $34,253,657; balance of receipts for year included in fund accounts, $17,087,852; bonds and mortgages issued, $2,370,338; sundry miscellaneous receipts, $5,921—total net resources, $53,717,768. *Payments:* Expended for additional property and construction, $16,586,532; bonds and mortgages paid (not including bonds redeemed with sinking funds), $1,697,577; purchase money obligations, bills payable and special deposits paid off, $13,652,368—total, $31,936,477. Balance of net resources for the year, accounted for as below, $21,781,291.

Increase in Current Assets, viz.: In sundry securities and investments, $3,193,605; in accounts and bills receivable in excess of increase in accounts payable, $9,595,635; in inventories and miscellaneous accounts, $12,625,946—total, $25,415,186, less decrease in cash on hand Dec. 31, 1902, as compared with preceding year, $3,633,895—balance, as above, $21,781,291.

UNION-SHARON PURCHASE.—In Dec., 1902, the Corporation acquired the entire issue of capital stock of the Union Steel Co., which latter company had absorbed the Sharon Steel Co. and had acquired the entire issues of capital stock of the Sharon Ore Co., the Sharon Coke Co., the Sharon Sheet Steel Co., the Donora Mining Co., the Republic Coke Co., the River Coal Co., and a controlling interest in the capital stock of the Sharon Tin Plate Co. and the Sharon Coal and Limestone Co. Such acquisition was effected by direct negotiation with the owners, on the basis of actual cost of the properties to the vendors, except as to certain ore and coal property and other lands, and as to them on a basis not exceeding actual present value.

In consideration of the transfer of the Union Steel Co.'s stock the Steel Corporation guaranteed the principal and interest of the Union Steel Co.'s 1st mtge. and collateral trust 50-yr. 5 p. c. gold bonds issued and to be issued to the aggregate principal sum of $45,000,000. The amount of these bonds which were outstanding at the time the stock was formally turned over to the Steel Corporation was $29,114,000. The balance of the issue of the above bonds is reserved for the following purposes: Sold for cash, at par, to be taken in monthly installments during 1903, by the vendors of Union Steel Co. stock, in accordance with agreement with them, $8,512,000 (the cash received from the sale of these bonds is to be used for completing furnaces, mills, and additions and extensions to the property under way on Dec. 1, 1902, and to provide working capital); reserved to retire outstanding bonds of the Sharon Steel properties at their maturity, $3,500,000; reserved for future use for additions, construction and improvements, $3,874,000—total authorized issue, $45,000,000.

The property acquired through the capital stock of the Union Steel Co., completed and under construction, is as follows: Manufacturing Plants at Donora and Sharon, Pa.—5 blast furnaces, 24 O. H. furnaces, 2 blooming, slabbing and sheet bar mills, 4 rod mills, 2 wire and nail mills, 1 skelp works, 1 tube works, 1 plate mill, 1 tin plate plant, 1 sheet plant, By-Product Coke Plant, 212 ovens. Coking coal property in Lower Connellsville district, 4,740 acres of coal and 810 acres of surface. Steam coal property on Monongahela River, 1,524 acres of coal and 179 acres of surface. The Sharon and Penobscot mines (in fee) and Donora and Sweeny mines (leases) on the Mesaba Range, containing approximately 40,000,000 tons of iron ore. Two modern steel ore steamers.

The negotiations preliminary to the transfer of the above properties were completed and the properties formally turned over to this organization after Jan. 1, 1903. Therefore the earnings for such properties for Dec., 1902, and the assets, liabilities and bonded debt thereof at the close of the year are not included in the statements and balance sheet embraced in this report. It is believed the earnings of the above properties will be sufficient to provide at least the interest on the bonds and a sinking fund which will eventually pay and retire the bonds.

PURCHASE OF TROY STEEL PRODUCTS COMPANY.—The American Steel and Wire Company acquired as of Jan. 1, 1903, the entire issues of capital stock and 1st mtge. bonds of the Troy Steel Products Co. at the price of $1,100,000. The property owned by above company is situated on Breaker Island, in the Hudson River, at Troy, N. Y., together with property and accessory works on the east side of the river. The property consists of three blast furnaces, steel works and rolling mill.

EMPLOYEES' SUBSCRIPTIONS TO PREFERRED STOCK.—On Dec. 31, 1902, the Board of Directors submitted to the employees of the corporation and its subsidiary companies a plan whereby every employee was granted the opportunity to participate in the profits of the organization through the purchase of preferred stock of the corporation. Copy of the circular setting forth the plan in detail was sent to each stockholder of record. The plan was most favorably received by the employees, the subscriptions exceeding by about 100 p. c. the amount it was anticipated would be taken. Allotments of stock were made to subscribers on the following basis: To Class "A" employees, 50 p. c. of their subscription; to Class "B" employees, 60 p. c. of their subscription; to Class "C" employees, 70 p. c. of their subscription; to Class "D" employees, 80 p. c. of their subscription; to Class "E" employees, 90 p. c. of their subscription; to Class "F" employees, 100 p. c. of their subscription. The total number of employees who subscribed for stock was 27,379, and the number of shares allotted them, 48,983. As indicated in the circular above referred to it is the intention of the corporation, if the plan meets with continued success, to annually make a similar offer to employees, excepting, of course, that the price at which the stock then will be offered cannot now be determined. At the date of submitting this report every indication points to the complete success of the plan.

To provide for the offer for sale of preferred stock to employees under the above plan, the corporation purchased the necessary shares of its preferred stock. The investment in this stock is included in the general balance sheet, in the item of "Sundry Marketable Stocks and Bonds." The amount paid for purchase of this stock will be collected in cash from employees in monthly installments during 1903, and subsequent years, together with 5 p. c. interest on the deferred payments.

NUMBER OF STOCKHOLDERS.—The following shows the number of stockholders in the United States Steel Corporation in March, 1903, in comparison with the number at corresponding date in preceding year: Preferred—1902, 25,296; 1903, 31,799; increase, 6,503. Common—1902, 17,723; 1903, 26,830; increase, 9,107. Total, 1902, 43,019; 1903, 58,629; increase, 15,610. The foregoing does not include the subscriptions for preferred stock by the 27,379 employees referred to in the preceding paragraph.

Under date of March 3, 1903, in a circular addressed to the holders of the preferred stock of the U. S. Steel Corporation Messrs. J. P. Morgan & Co. stated:

"For account and in behalf of the United States Steel Corporation, and under and in pursuance of the provisions of a certain agreement between that Corporation and the undersigned, dated April 1, 1902, and approved by the stockholders of the Corporation at a special meeting held May 19, 1902, the undersigned hereby offer to every holder of preferred stock of the United States Steel Corporation, of record at the close of business on the sixteenth day of March, 1903, for and during the period of sixty days from and after such date:

"(1) The preferential opportunity to subscribe for, and to take at par, the 10-60-year 5 p. c. sinking fund gold bonds of the United States Steel Corporation, in such even amounts (*i. e.*, $500 or multiples thereof) as such holder of preferred stock may desire, in the aggregate not exceeding $200,000,000, nor in any instance exceeding forty per cent. of the par amount of the preferred stock standing in the name of such holder of preferred stock at the closing of the books on March 16, 1903. Such subscriptions shall be payable in preferred stock of the United States Steel Corporation at par, that is to say, five shares of such preferred stock for each $500 of such bonds; and also

"(2) The like opportunity, at his further option, to make an additional subscription, payable in cash, for bonds of such issue, at par and accrued interest, to an even amount approximately equal to ten per cent. of the par amount of the preferred stock standing in the name of such preferred stockholder on March 16th.

"The said bonds are to bear date April 1, 1903, and are to be part of an authorized issue of $250,000,000, and the form thereof, as well as of the indenture of mortgage, lien or pledge securing the same, is to be satisfactory to the undersigned.

"The indenture of mortgage, lien or pledge securing said bonds is to bear date April 1, 1903, and is to be next in rank and similar in form to that securing the bonds of the United States Steel Corporation for $304,000,000, issued under and secured by the indenture to the United States Trust Company of New York, dated April 1, 1901. The proposed form thereof (which, however, until the date of the execution thereof, will be subject to modification in any particular not herein specified), may be examined by any recorded holder of preferred stock on or after March 16, 1903, at the office of the Transfer Agent, 71 Broadway, New York, or at this office.

"The bonds are to bear interest at the rate of 5 p. c. per annum, from their date, April 1, 1903, and every deposit of preferred stock under this offer shall operate as a transfer to the Steel Corporation of all right to dividends accruing on such deposited stock after April 1, 1903. The deposited preferred shares will be held in the names in which they are deposited until after the preferred stock books shall have closed for the dividend for the quarter ending April 1st, payable May 15, 1903. The new bonds will be deliverable as soon after the latter date as they can be prepared.

"The principal of such bonds will be payable in sixty years, but they will be redeemable at the pleasure of the Corporation at any time after the expiration of ten years from the date thereof at 110 and accrued interest. In case less than the whole issue is redeemed at any one time the bonds to be redeemed are to be designated by lot, and the coupon bonds are to be redeemed first.

"An annual sinking fund of $1,010,000 is to be provided by the United States Steel Corporation for the redemption of the bonds. The bonds will be issued as coupon bonds, each for the principal sum of $1,000 or $5,000, and as registered bonds each for the principal sum of $500, $1,000, $5,000 or of any multiple of $5,000 that may be authorized by the Steel Corporation. The coupon bonds are to be exchangeable at any time for registered bonds, and the registered bonds when presented in even amounts of $1,000 are to be exchangeable for coupon bonds, at the will of the holders, upon terms to be stated in the said indenture.

"Under the said bonds and the instrument securing the same no action or proceeding, either at law or in equity, can be instituted or maintained for the enforcement or collection of interest on the bonds, or for maturing the principal thereof by reason of a default by the Steel Company in the payment of any installment of interest, until after such default in the payment of such installment shall have lasted for the period of two years continuously."

VIRGINIA IRON, COAL AND COKE CO.—Chartered by the Commonwealth of Virginia on Jan. 19, 1899. It was authorized to issue $10,000,000 1st mtge. bonds and $10,000,000 capital stock. The company, after its creation, issued all of its bonds and stock, except $30,000 of bonds, for the purchase of property and for collateral to secure payment of money borrowed, and to retire prior liens existing on the property, and other obligations. The company became insolvent and was placed in the hands of receivers; during the receivership, which continued from Feb. 6, 1901, to Jan. 1, 1903, at which date the receivers were discharged and the company took possession of its property, the amount of bonds, by payment of moneys on the part of the Receivers' Committee on Reorganization and the sinking fund, by making purchase of same, was reduced to $7,822,000.

The properties owned by this company include in all, eleven blast furnaces, two at Roanoke, Va.; one at Radford, Va.; one at Pulaski, Va.; one at Max Meadows, Va.; one at Graham, Va.; one at Bristol, Va.-Tenn.; one at Johnson City, Tenn.; one at Embreeville, Tenn., and two at Middlesboro, Ky. The furnaces at Graham and Johnson City are leased to other parties. The Embreeville Furnace is not in operation; all the other furnaces are in active operation by this company.

The company also owns a well equipped plant, consisting of a pipe foundry, with some seventeen other buildings, brick and frame, at Radford, Va., which are leased to the Glamorgan Pipe & Foundry Co.; also plant for manufacturing of horseshoes and bar iron at Max Meadows, Va., which is not now in operation. It also owns 950 coke ovens, 150 located at its Looney Creek mine, Va., and 800 at Toms Creek, Va. It owns absolutely in fee about 32,000 acres of land, of which a large part are coal lands, and the mining rights on about 48,000 acres coal lands additional in Va. It also owns about 65,000 acres of coal lands in the State of Kentucky. In Tennessee it owns some 40,000 acres of ore land, and by controlling interest in the different properties large amounts of iron ore and limestone properties. The properties are free from liens other than here stated, except real estate lien on the Dora Furnace Co., estimated at $28,000.

Under the plan of reorganization accepted by practically the entire amount of outstanding bonds, and which was promulgated Aug. 1, 1902, it was agreed that the depositing bondholders should fund the semi-annual coupons maturing Sept. 1, 1901, Sept. 1, 1902, and Sept. 1, 1903. On deposit of the bonds with the Manhattan Trust Company, the bondholders received cash payment of the March, 1901, and March, 1902, semi-annual coupons. Later, owing to the large receipts from the operations of the properties, the receivers were enabled to pay on Oct. 1, the Sept., 1901, coupon, and on Dec. 1, the Sept., 1902, coupon. The coupon due Sept., 1903, was funded into scrip drawing interest from Sept., 1902, the average date of the three funded coupons. The 1st mtge. 5 p. c. bonds of 1949 bear the coupons due March 1, 1903, and March 1, 1904; also coupons due Sept. 1, 1904, and semi-annually thereafter.

The company controls the Virginia and Southwestern Ry. Co., through ownership of its entire stock and bonds (see appended statement).
